1. INTRODUCTION

General information

In February 2011, Wrocław began its efforts to be chosen as The World Games 2017 host. In May 2011, the City of Wrocław officially announced its candidacy for the event along with Budapest, Genoa and Cape Town. On 5 September 2011 the International World Games Association (IWGA) announced the list of candidate cities that met the criteria for the Games. This announcement was made after visiting the candidate cities and verifying the application forms. This included Wrocław, Budapest and Cape Town. During the period from September to December, IWGA representatives visited the candidate cities.

On 11 and 12 January 2012, during the IWGA Executive Committee meeting in Lausanne, presentations of the final candidate cities were given. The President of the International World Games Association Ron Froehlich announced that Wrocław was to host the Games on 12 January 2012.

In Quebec on 21 May 2012, an agreement between the Municipality of Wrocław and the International World Games Association was made. This agreement made the City of Wrocław the official host and organiser of the 10th World Games 2017.

INTERNATIONAL CONVENTION

TUESDAY, MAY 22, 2012

ISSUE 2

Wrocław to stage 2017 World Games

The Polish city of Wrocław was ratified as the host of The World Games 2017 yesterday during the annual general meeting of the International World Games Association at Sportaccord Convention.

Wrocław officially introduced itself to the 33 IWGA Member Federations yesterday morning after the Mayor of Wrocław, Rafał Dutkiewicz, signed a host agreement with IWGA President Ram Froelich in Québec City on Sunday evening.

We had to look at it from the point of view of whether they could see the show, said Froelich on the decision to select Wrocław ahead of Budapest,

Hungary, in the final vote, which took place in January.

They have the 2012 UEFA European Championships (which will be co-hosted by Poland and Ukraine), they have the 2016 European Capital of Culture and then they have The World Games 2017. They wanted to have a big, multi-sport event, which had never been done in Poland.

Wrocław will stage three games during Euro 2012, which will start on June 8, but Dutkiewicz believes The World Games 2017 has the potential to have an even greater impact on the city.

In terms of the European Championships, that will act as an important engine for us to prepare

the infrastructure for the future, he said. The World Games is a bigger event and its a world event. Therefore I do believe that the recognition of Wrocław would be even higher.

The World Games is a multi-sport event that showcases more than 30 sports and features some 4,400 athletes representing over 90 countries.

As the host, Wrocław will also have the opportunity to select five Invitational sports.

The decision about these Invitational sports disciplines is still not taken, but most probably we will be talking about luge, maybe lacrosse, and in the case of Poland, speedway is pretty important, said Dutkiewicz.

FIA SET TO JOIN ARISF

The Fédération Internationale de l'Automobile (FIA), the International Automobile Federation, is poised to join the Association of Recognised International Sport Federations (ARISF).

At yesterdays general assembly, ARISF President Dr. Jan Fransoo confirmed that the FIA will soon become part of the association roster.

Some paperwork still needs to be completed, but within the next few weeks they will be added to the association, he said.

The International Olympic Committee recognised the FIA, motor sports governing body and the federation for the worlds leading motoring organisations, last

Continued on P2

Programme of the Games

The Host City was obliged to hold sports competitions in the following sports:

PRECISION SPORTS

STRENGTH SPORTS

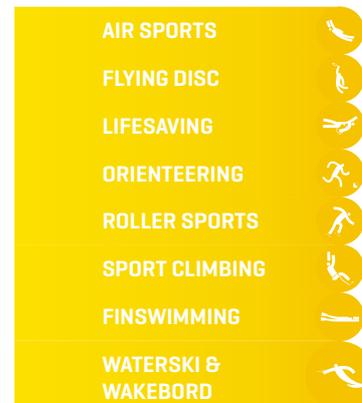

DANCE & GYMNASTICS SPORTS

BALL SPORTS

TREND SPORTS

MARTIAL ARTS

The World Games Rules and the Agreement that had been signed with IWGA, said that Wrocław as a host city was entitled to choose up to five sports that would be played during the Games under the so-called Invitational sports programme.

The organisers received 24 applications from sports associations and federations interested in taking part in the Games via the Invitational sports programme. Some of these applications did not meet the formal requirements. The other applications were considered in terms of opportunities available and organisational needs, attractiveness to the media, tradition and how popular that sport was in Poland. Eight disciplines were selected for the second stage of the selection process:

- baseball,
- american football,
- futsal – indoor football,
- kickboxing,
- combined driving [horse driving trials],
- chess,
- indoor rowing, and
- speedway.

Finally, the following disciplines were selected to participate in TWG:

INVITATIONAL SPORTS

This selection was made taking into account the results of an Internet poll carried out on www.wroclaw.pl, where Internet users could specify the sports they would like to watch during TWG in Wrocław, by choosing from the list of sports above that qualified in the first stage. A total of 97,966 votes were cast in the poll.

The Schedule of the Games agreed with IWGA was as follows:

Cooperation with IWGA

All activity between the Host City and IWGA was regulated by the Agreement. The Agreement established a joint Coordinating Committee for The World Games 2017, made up of five IWGA representatives and five representatives of the City.

The Agreement said there should be up to ten meetings of the Committee during the whole period of coordination, which were held on the following dates:

- 2-3 December 2013
- 8-9 April 2014
- 19-20 November 2014
- 6-7 March 2015
- 5-6 November 2015
- 29-30 June 2016
- 1 December 2016
- 1 June 2017
- 2 October 2017

Local Organising Committee

According to the Agreement, the Host City was solely and fully responsible for the entire organisation of the Games and was obliged to appoint a Local Organising Committee to deal with all operational aspects of the organisation of TWG2017. At the same time, the Agreement stated that the City could set up a company or other entity to organise The World Games, provided that this entity was known as the Wrocław Organising Committee (WOC).

Consequently, in order to prepare for and host the 10th World Games 2017, Wrocław City Council under resolution of no. LIII/1324/14 of 23 January 2014, decided to establish a company called Wrocławski Komitet Organizacyjny – Światowe Igrzyska Sportowe 2017 Sp. z o.o. with the Municipality of Wrocław as the sole shareholder.

2. MANAGEMENT OF THE GAMES

General information

The Mayor of Wrocław appointed [by Order No. 8472 of 3 September 2013 [with later amendments] an Executive Committee for The World Games 2017 in Wrocław, in order to carry out activities related to the Games. This was to fulfil the Agreement concluded on 21 May 2012 between the Municipality of Wrocław and the International World Games Association.

Composition of the Committee after the last valid amendment to the Order [20 October 2016]:

1) Chair of the Committee: Mr. Wojciech Adamski - Deputy Mayor of Wrocław

2) Members of the Committee:

- Mr. Adam Grehl - Deputy Mayor of Wrocław,
- Mr. Maciej Bluj - Deputy Mayor of Wrocław,
- Ms. Anna Szarycz - Deputy Mayor of Wrocław,
- Mr. Marcin Urban - Treasurer of the City of Wrocław,
- Mr. Włodzimierz Patalas - Secretary of the City of Wrocław,
- Mr. Jacek Barski - Director of the Department of Architecture and Development of the Municipality of Wrocław,
- Ms. Elżbieta Urbanek - Director of the Department of Infrastructure and Economy of the Municipality of Wrocław,
- Mr. Lech Filipiak - Director of the Department of Real Estate and Maintenance of the Municipality of Wrocław,
- Mr. Marcin Garcarz - Director of the Department of the Mayor, Municipality of Wrocław,
- Mr. Jacek Sutryk - Director of Department of Social Affairs of the Municipality of Wrocław,
- Mr. Piotr Mazur - Director of the Sports, Tourism and Recreation Office of the Municipality of Wrocław,
- Mr. Jarosław Delewski - Director of the Education Department of the Municipality of Wrocław,
- Mr. Paweł Losiński - President of the Management Board of Wrocławskie Centrum Treningowe Spartan Sp. z o.o.,
- Mr. Marcin Przychodny - President of the Management Board of Wrocławski Komitet Organizacyjny Światowe Igrzyska Sportowe Sp. z o.o.,
- Mr. Adam Roczek - Vice President of the Management Board of Wrocławski Komitet Organizacyjny Światowe Igrzyska Sportowe Sp. z o.o., and
- Mr. Paweł Rychel - President of Wrocławskie Inwestycje Sp. z o.o.

3) Secretary of the Committee - Ms. Beata Pierre, authorised representative of the Management Board of Wrocławski Komitet Organizacyjny Światowe Igrzyska Sportowe Sp. z o.o.

The company Wrocławski Komitet Organizacyjny – Światowe Igrzyska Sportowe 2017 Sp. z o.o., acting as the Local Organising Committee referred to in the Agreement, was incorporated on 14 February 2014 with a Memorandum of Association [Notary Deed, Roll of Deeds A No. 455/2014] by the Mayor of Wrocław, acting on behalf of and for the Municipality of Wrocław, pursuant to resolution no. LIII/1324/14 of the City Council of Wrocław of 23 January 2014. The company was registered with the National Court Register by the District Court for Wrocław Fabryczna with KRS registration number: 0000504742 and is identified by taxpayer number NIP: 8971796827 and statistical number REGON: 022358693. The Company's registered office address is Rynek 13, 50-101 Wrocław, Poland.

The distribution of responsibilities related to holding TWG in Wrocław between the organisational units of the Wrocław Municipality, the municipal organisational entities, the municipal entities operating under commercial law and the cultural institutions of the Wrocław Municipality were determined by Presidential Orders No. 3564/16 of 17 February 2016 and 5590/16 of 20 October 2016.

WOC was obliged to organise and hold the Games, ensuring proper organisation in all areas. In addition, according to the provisions of the Order of the President of Wrocław No. 3564/16, WOC was responsible for co-ordinating and supervising any work entrusted under this Order to designated units and institutions.

As WOC is a company whose only shareholder is the Municipality of Wrocław, it is governed by the Public Procurement Law and, therefore, when ordering services and supplies, it is obliged to apply the rules and procedures for the award of public contracts under that law. These procedures and formal requirements are defined in the internal Public Procurement Rules of the Company.

The organisational chart of the Company, which also defines all TWG2017 organisation areas, is presented in Diagram 1.

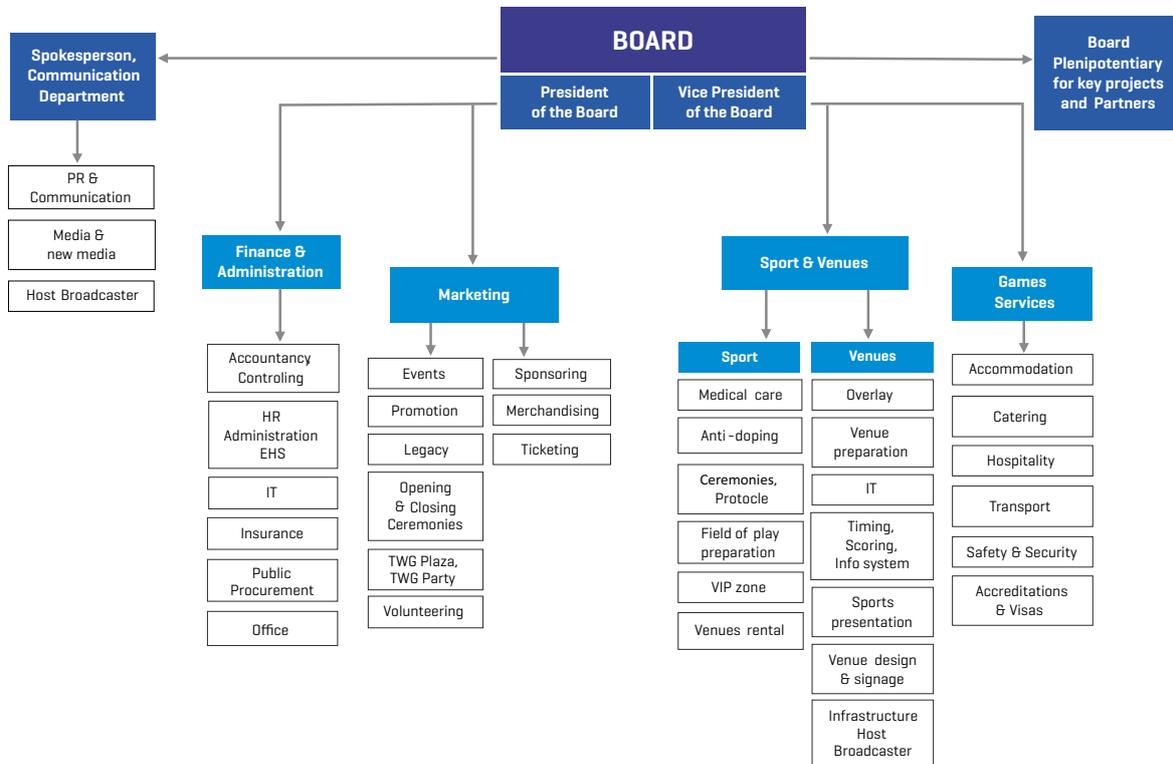

Diagram 1. WOC organisational structure

WOC Management Board

According to the Memorandum of Association, the Management Board of WOC consists of one to three members being appointed and dismissed by the Supervisory Board of the Company. The term of office of the Management Board is two years.

The Management Board of the 1st term of office

Period	Composition of the Management Board
14 February 2014 – 31 August 2015	Two-member Board: President of the Board: Piotr Przygoński Deputy President of the Board: Michał Bobowiec
1 September 2015 – 31 January 2016	Single-member Management Board: President of the Board: Piotr Przygoński
1 February 2016 – 5 May 2016	Two-member Board: President of the Board: Marcin Przychodny Deputy President of the Board: Adam Roczek

The Management Board of the 2nd term of office

Period	Composition of the Management Board
5 May 2016 – present	Two-member Board: President of the Board: Marcin Przychodny Deputy President of the Board: Adam Roczek

According to the Memorandum of Association, control of Company activities is conducted by the Supervisory Board, whose term of office is three years.

The Supervisory Board of the 1st term of office

Period	Composition of the Supervisory Board
14 February 2014 – 22 April 2016	Chairman: Piotr Paś Deputy Chairman: Magdalena Bulik-Nowińska Member of the Supervisory Board: Marian Dymalski
22 April 2016 – 25 May 2017	Chairman: Piotr Paś Deputy Chairman: Magdalena Bulik-Nowińska Member of the Supervisory Board: Marian Dymalski Member of the Supervisory Board: Agnieszka Tuderek-Kuleta Member of the Supervisory Board: Barbara Cioch

The Supervisory Board of the 2nd term of office

Period	Composition of the Supervisory Board
25 May 2017 – present	Chairman: Piotr Paś Deputy Chairman: Magdalena Bulik-Nowińska Member of the Supervisory Board: Marian Dymalski Member of the Supervisory Board: Agnieszka Tuderek-Kuleta Member of the Supervisory Board: Barbara Cioch

Operational readiness - Master Plan

The schedule for the preparation of The Games was set out by WOC Management Board and the Supervisory Board in their Master Plan. The Master Plan covered 42 key areas of work, and set out the actions that needed to be taken to ensure that the obligations under TWG2017 Agreement were fulfilled. The process of implementing particular tasks was divided into various main stages defined as:

1. Planning - Market research and concepts.
2. Choice of methods of realisation - closure of planning, tenders, contracts, selection of Contractors.
3. Preparation for the realisation - operational plans, rules and regulations, manuals.
4. Implementation and realisation - production of components, personnel training, deliveries, rehearsals and tests.
5. The Games.
6. Financial settlement, summaries, reports.

Operational Management – project management structure during the Games

During The Games, services defined as tasks in the Master Plan were provided at the Official Locations, including 24 Competition Venues, and in urban spaces. For this reason, an Official Location, in particular a Competition Venue, became the main unit of management during the Games.

TWG2017 Operational Management Structure, which defines how WOC worked for the duration of The Games, is presented in Diagram 2. WOC's operation in accordance with the structure of Diagram 2 was planned for the period from 10 June to 2 August 2017. The model management structure of an official Competition Venue is presented in Diagram 3.

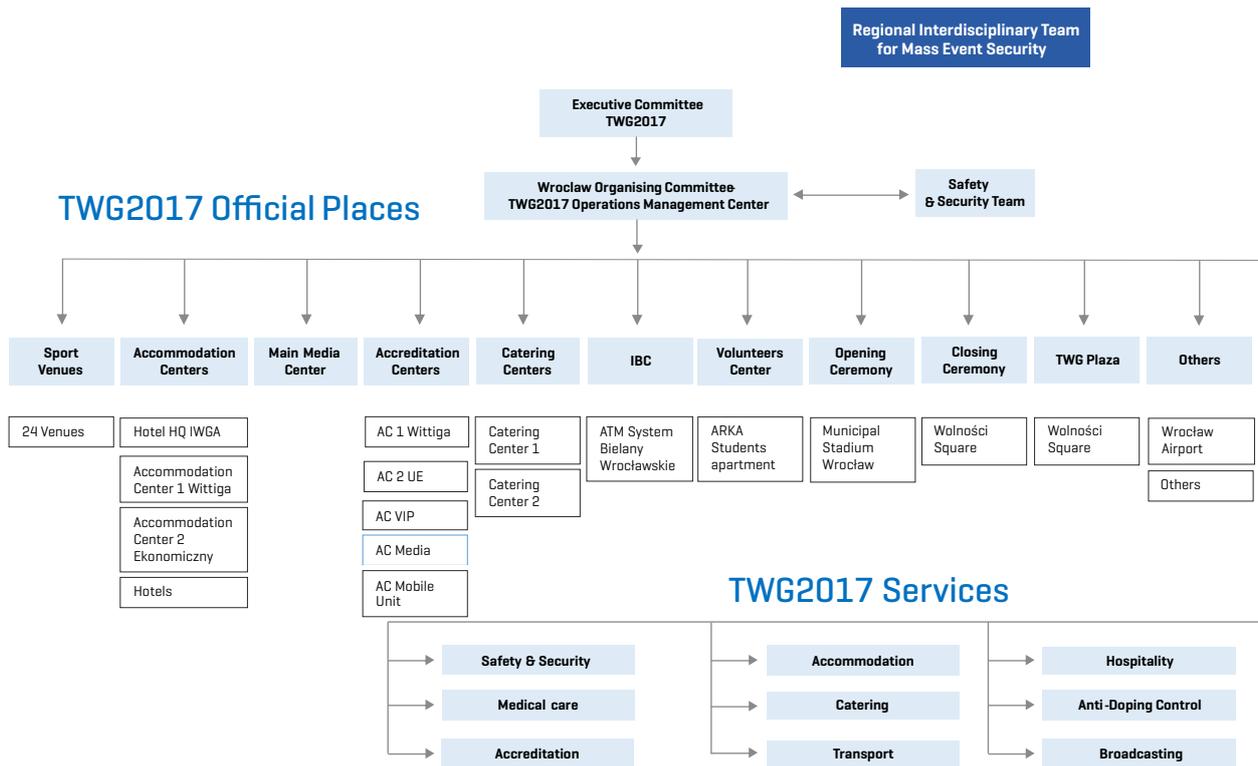

Diagram 2. TWG2017 Operational Management Structure – Organisational Chart.

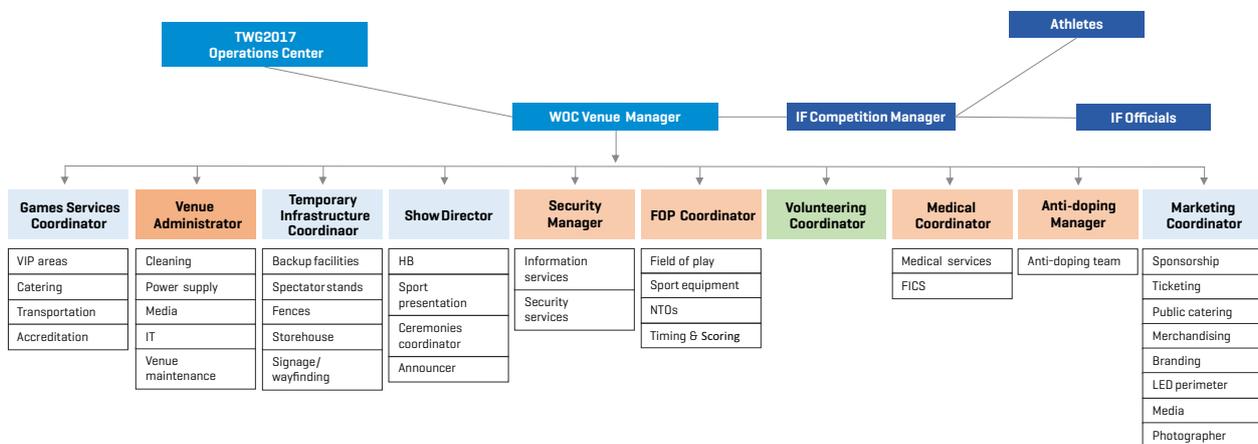

Diagram 3. Master Venue – model scheme for the management of an Official Venue.

Cooperation with Partner Cities and the Lower Silesian Voivodeship

On 21 October 2014, an Agreement was signed between the Municipality of Wrocław and the Lower Silesian Voivodeship. In the Agreement, the parties said they would assist and work with each other as part of the organisation of the 10th World Games 2017.

Bearing in mind this agreement, and the desire to bring TWG closer to the residents of the region, a decision was taken to hold some of the events of The World Games in cooperation with cities/towns located in the Lower Silesia region. Agreements were signed with three Partner Cities:

- on 30 November 2015 with Świdnica,
- on 2 March 2016 with Jelcz-Laskowice, and
- on 2 March 2016 with Trzebnica.

Collaboration with the Polish Olympic Committee and the Ministry of Sports and Tourism

Cooperation Agreements on the organisation of The World Games 2017 between the Municipality of Wrocław, and the Minister of Sport and Tourism as well as between the Municipality of Wrocław and the Polish Olympic Committee (POC) were signed on 2 October 2014 at the offices of the Ministry of Sport and Tourism in Warsaw. These Agreements aimed to achieve both organisational success of the project, and to promote physical activity, the Olympic movement and Poland.

The Agreement with the Minister of Sport and Tourism defined the following areas of joint action:

- construction and modernisation of sports infrastructure for the Games,
- organisation of the Games,
- promotion of physical activity,
- support for the preparation of the Polish national team to participate in the Games, and
- promotion of Poland and Wrocław as the host city of the Games.

The scope of the Agreement with the Polish Olympic Committee comprised:

- development of sport,
- promoting and disseminating the principles of the Olympic movement, and
- promotion of Poland and Wrocław as the host city of the Games.

Designated representatives of the Ministry and POC supported WOC's activities throughout the preparation period for TWG, and, during the Games they assisted the Polish national team.

Risk Management

Given the scale and importance of the event, the risk of emergency and non-scheduled developments during the implementation of the project was analysed. The risk analysis covering Official TWG2017 Venues, and the implementation of key services was subject to constant ongoing verification and updates. The risk analysis was presented to IWGA twice a year, in accordance with the Agreement.

Alternative and remedial actions were developed in case of problems arising as identified in the risk analysis. These were included in the operational plans of the Official Venues and the services prepared by WOC.

3. BUILDING THE BRAND: Promotion and Communication

General information

Communication activities during The World Games 2017 aimed to get coverage with a satisfactory number of media publications, have a constant media presence with positive content, to promote Wrocław as a host city, to give the largest possible measurable advertising value equivalent (AVE) and increase the recognition of the Games and their disciplines across the country.

One of the main communication objectives was to build social acceptance for The World Games 2017 in Wrocław and to convince the public about the uniqueness of the event. It was also important to spread the idea of "Legacy" - the heritage of The World Games Wrocław 2017, based on both the venues built especially for the Games and the social programmes that encouraged an active lifestyle among all social groups.

These three objectives were supported by complementary communication, which developed and expanded the main assumptions. Information related to the promotion of ticket sales and the competitions in TWG2017 sports was regularly visible in the media.

It is worth noting that The World Games, at the time of the signing of the agreement for the organisation, was a sporting event with little recognition, but this is not synonymous with the recognition of particular sports from the programme of the Games. This is because the programme includes sports and disciplines that are very well known to fans in Poland, such as martial arts, billiards and dance sports. In addition, the host city specified four invitational sports, which included speedway - a very popular sport in the Poland. The challenge, however, was to encourage spectators to go to the events in disciplines that are popular outside Poland, which were often unknown to local fans.

Communication challenges and assumptions

Based on an in-depth analysis, a number of communication challenges were identified. The most important included: bringing the residents of Wrocław and the region [i.e. potential spectators during the competition] closer to the idea of TWG and individual disciplines; achieving interest in the event from local, regional and national media; raising awareness among certain target groups of the benefits of holding TWG in Wrocław; building of the image of TWG2017 as an event where athletes would compete in sport disciplines of worldwide popularity; and creating an image of Wrocław as a modern and active city holding regular events of global reach.

Due to the nature of the event, the main messages encouraging attendance at TWG2017 were addressed to the residents of Lower Silesia, with particular emphasis on the Wrocław metropolitan area. The messages addressed to the people of Wrocław and the metropolitan area were aimed at raising, as far as possible, the identification of Lower Silesians [especially Wrocław inhabitants] with the event organised in 2017. At the same time, a key task was to convince the people that this was a unique event that could not be missed.

The communications and marketing team concluded that the communication and promotional activities would be effective if the people could be convinced that it was a tailor-made event especially for them, in line with the slogan formulated at the Barcelona Olympic Games: "Games must be at the service of the City. The City must not be at the service of the Games.... Because Games are temporary and the City is permanent...".

An additional set of messages was developed for the nation-wide campaign, where the plan was to strengthen the positive image of the city as a venue for interesting events, worth visiting. The nation-wide image campaign was supposed to emphasise why Wrocław is special, building the brand of Wrocław as the most sports-friendly city in Poland.

It is worth mentioning that the national media was also reaching the local [Wrocław metro area] and Lower Silesian audiences. This increased pride in the city, as people could identify with an event of nation-wide media coverage.

Key messages

Communication on The World Games 2017 focused on three statements that have been applied since March 2015:

- TWG2017 is a great sports event, the only one of such importance in the history of Wrocław and Poland.
- TWG2017 is a festival of sports familiar to people, sport for everybody, and encourages physical activity.
- The venues built for TWG2017 will remain in the city after The Games and serve the residents in their daily recreation.

These three image elements were communicated simultaneously, but with varying intensity. The image of TWG2017 and their reception is the sum of these three inseparable messages.

Supplementary messages

- TWG2017 is an event that cannot be missed. The only chance to see the best athletes in the world in disciplines that rarely (if at all) can be watched in Poland at such a high level.
- Many of TWG2017 disciplines can be tried by anyone, regardless of age, without the need to purchase specialised equipment.
- TWG2017 is an opportunity to see how Poles are doing in comparison with world-leading athletes, and an opportunity to enjoy their successes [ju-jitsu, powerlifting, sport climbing, kick-boxing].
- TWG2017 is an opportunity to cheer on the large Polish team, the athletes with a White Eagle (Polish national symbol) on their chest.
- Thanks to TWG2017, a number of programmes have been launched to promote new sports and physical activity among young people. Schools were given equipment and the programme "Mali wspaniali" (Magnificent Minors) was introduced in all kindergartens in Wrocław; it is also being developed in several other Polish regions.
- TWG2017 is a ticketed event, but tickets are available at affordable prices, which will allow entire families to attend.

As a result, the communication was intended to support the marketing and sales activities related to the commercial dimension of TWG2017.

Channels and tools for building the brand and image:

- media coverage,
- website and social media,
- outdoor promotional and image campaigns, and
- promotional events.

Cooperation with Media

Considering the influence and potential impact of coverage in the traditional media on the branding, collaboration with Media Patrons and the Host Broadcaster had already been taken into account during the planning phase of the Master Plan.

TV promotion

In November 2015, following an appropriate procedure, an agreement was signed with the Host Broadcaster - ATM System Sp. z o.o. [HB]. The agreement included the television broadcast production of the Games, and a non-compulsory additional element in the form of producing, before TWG2017, a package of editorial materials building the image of the Games and Wrocław as the Host City.

The World Games 2017 Wrocław Organising Committee planned a promotional TV programme for the Games based on a consistent and well-structured narrative. The programme highlighted the beauty of sport in TWG2017 sports, the future of modern sports, the popularity of non-Olympic sports and their availability, the presence of great sports at historical sites of world architecture such as the Centennial Hall in Wrocław or the Olympic Stadium, and

the promotion of a healthy lifestyle. In addition, the television programme included statements by opinion leaders, science and sports authorities and Ambassadors of the Games, or renowned athletes. The promotion covered various television activities selected so as to enticingly present the ideas and individual disciplines of TWG2017, the Host City and Institutional Partners such as the Ministry of Sport and Tourism and the Polish Olympic Committee. The HB released various forms of television promotion as editorial materials, short shows, interviews, announcements and trailers. Depending on the type of activity, they lasted from 40 to 90 seconds. The TV promotion plan was divided into stages, closely related to the preparation of The World Games 2017. The stages of the Image Package were: May 2016, June - September 2016, October - December 2016, December 2016 - August 2017.

As part of the implementation of the Image Package, the HB produced and broadcast shows on Polsat Sport Television. These shows included the live coverage of the WDSF European Championship in Standard [May 2016] and the Final Four of the IFAF Europe Champions League [July 2016] as TWG2017 test events. In later stages, the HB produced and broadcast the following on Telewizja Polsat, Polsat Sport, Polsat Sport News, Polsat Sport Extra and Super Polsat: 80 editorial shows and nine short shows, which appeared more than 800 times in total during peak viewing times, especially the Prime-Time [from 5 p.m. to 11 p.m.], promoting the Games and highlighting their prestige and global reach. The target audience for the TV promotion was 16 to 49 year olds, reaching the audience level expressed by the GRP [Gross Rating Points] index, which reflects a 690% customer reach, as demonstrated in the relevant report.

Media Patrons

Apart from the TV partner, WOC worked closely with media outlets from other market segments. This included: 'Przegląd Sportowy' [a Polish sports news daily], 'Trójka' - 3rd Channel of the Polish Radio network, Onet.pl and Fakt 24.pl [together with the hard-copy version printed in 'Fakt' news daily].

Partnership work was established with local newspapers such as 'Gazeta Wroclawska', 'Gazeta Wyborcza Wroclaw' and 'Słowo Sportowe'. This work has resulted in the publication of numerous journalistic pieces and has contributed significantly to the promotion of the Games before it started and during the event.

Both the 3rd Channel of the Polish Radio network and Onet.pl used outdoor studios for the duration of TWG2017, which broadcast daily live programmes on the Games and presented the Games as they happened.

Media partners had varied responsibilities including reporting on ongoing events related to the TWG2017 and the promotion of the disciplines and athletes present at the event.

It should be added that the 'Przegląd Sportowy' published an insert titled 'Skarb Kibica' [Fan's Treasure] - a compendium about the disciplines and competitions of TWG2017; 'Gazeta Wroclawska' published in its free version 'Our City Wroclaw' all the information related to the organisational side of the event, while 'Słowo Sportowe' published a guide to the disciplines.

Website and social media

The website www.theworldgames2017.com was launched in November 2014. From the beginning, it included current information about the company's activities, a presentation of TWG2017 sports and the history of the event itself. With time, it began to publish more and more information about the preparations for The Games and the progress of organisational work.

The official website was upgraded in May and June 2017 to meet the needs and challenges of reporting on TWG2017. In addition to the new visual design in line with the new Games visual identity system, new features were added such as an interactive schedule of The Games, a clock counting down the days to The Games, integration with the results display system - Swiss Timing, integration with the eBilet.pl ticketing system, integration with the official visitWroclaw.eu tourist website, a photo gallery, media panel and panel for volunteers with separate news, links to media social networks.

The server bandwidth was also increased from 250 megabits per second to 500 megabits per second, which helped achieve the following results:

- 1,196,552 page views in July 2017 [2022% more than in the previous month],
- 78,734,468 page requests in July 2017 [962% more than in the previous month].

Facebook

An official Facebook account was established in 2013. Since then, the profile has gained over 77,000 followers and active users. The number of fans has been increasing by an average of 500 users a month.

The first posts were of a purely informative nature, and their purpose was to provide basics on The Games and inform people about the disciplines of the programme of TWG2017. With the launch of ticket sales [23 February 2017], a Facebook campaign to promote general admission tickets started.

Posts were published with a regular frequency of 2 a day. Most of the content included a series of promotional videos and video footage - a series of 30-60-second videos of athletes [Heroes of TWG] and information about the sports disciplines with various presenters. These videos were the most popular on social media. In the first half of 2017 the average video had over 84,000 views a month. The video that had the most views was "One month to go" [19.5 thousand views]. All the posts have been viewed in total more than 11 million times, and their content attracted over 206,000 users.

In July 2017, the Facebook profile activity increased to 3-4 posts per day [administrator activity increased by 338.37%]. The posts reminded followers of the place and time of each competition, presented reports from the competition and the most important results. The photo galleries and videos summarising the individual days of the Games were very popular.

The total number of video views was 679,000. In July, the posts reached more than 25 million people [1939% more than the average in the first half of the year], involving more than 1 million users [3099% more than average involvement in the first half].

The biggest daily increase in the audience was on the day of the Opening Ceremony—additional 2,360 followers. In July, nearly 20,000 Internet users liked the TWG2017 Facebook.

The most viewed posts included:

- Video of the Opening Ceremony: 448,000 views.
- Photo of the Polish National Team saying the pledge before the Opening Ceremony: 213,000 views.
- Announcement of the Opening Ceremony - photos from the assembly of the stage at the Wrocław Stadium: 205,300 views.

The fans were mostly male [58%], aged 18-24. The largest nationality group were Poles.

Twitter

Until the start of the Games, the Twitter profile served as a supplement to the Facebook account. Twitter activity increased significantly in July 2017 [3,319% more than in the previous month], when the profile was the first source of information on the results, changes in the schedule and weather reports. At that time, user engagement increased by 2,061% as compared to previous months.

The most popular tweets included:

- The pledge said by the Polish National Team before the Opening Ceremony: over 33,000 views.
- Announcement of the American football match Poland vs. USA: 22,500 views.
- Account of the concert performed by a band "Kult" in the Fan Zone at the TWG Plaza: 21,000 views.

The largest group of viewers were men [69%] in the 24-27 age group, from Poland. The rest were UK [7%] and US [6%] residents.

TWG 2017 Twitter account had about 2900 followers between 20th and 30th of July.

Instagram

In the first half of the year, the Instagram account was viewed by 3,500 users. In July 2017, the profile gained another 3,000 followers. In addition to traditional posts, the photos published using InstaStory [removed after 24 hours] were also popular. User activity in July increased by more than 10,000% compared to the previous period. The viewers were more willing to share their opinions in photo comments [1,078% more than in the previous months], and the number of post likes increased by 2,456%. The most viewed posts included:

- Summary of the medal classification - medal photographs: 777 likes.
- Photo of the Polish national team saying the pledge before the Opening Ceremony: 693 likes.
- Photo of the Polish national team at the parade during the Opening Ceremony: 631 likes.

YouTube

A YouTube account was established in 2014 and since its beginning has played the role of video database. The profile was not promoted as the main focus was on the publication and promotion of film material hosted on YouTube on facebook.com.

Currently, there are 113 videos on the channel, including 32 video reports from each day of the Games. The most popular videos include:

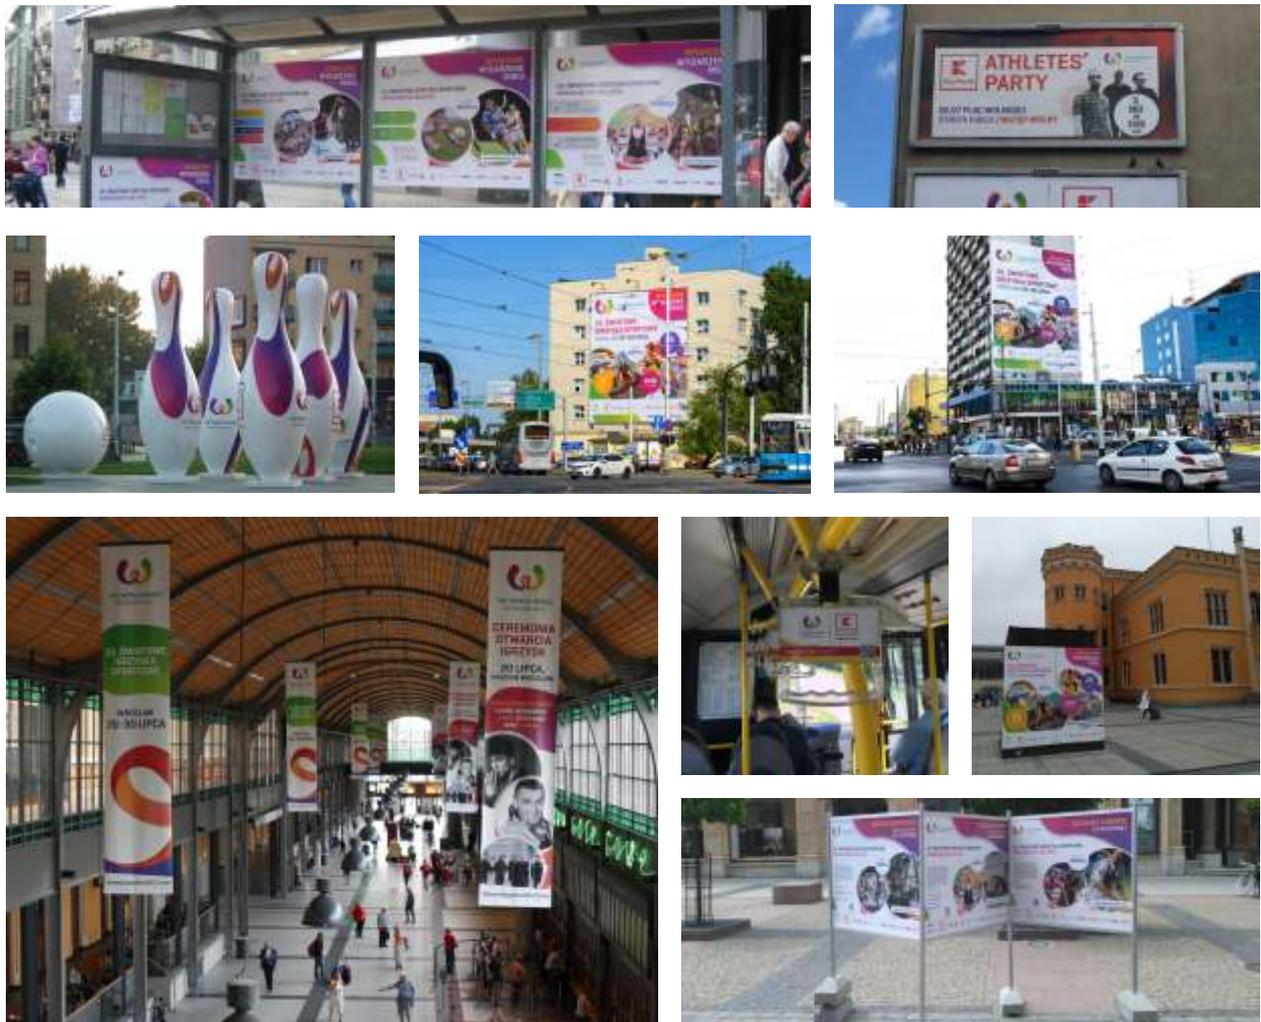

- The World Games 2017 - Ju-Jitsu: 473 views.
- The World Games 2017 - VR 360° Experience: 194 views.
- The World Games 2017 - Squash: 67 views.

The videos were mostly watched by men [73%] aged 25-34 [35%] from Poland [54%], Germany [5.9%] and the United States [4%].

Across all social media, the hashtags #czekamynaTWG, #twg2017 and #roadtoWroclaw were used, and the national and world federations of individual sports and IWGA were encouraged to use these hashtags.

Outdoor promotional campaigns

Promotional activities in the city of Wrocław aimed to create a positive image of the sporting event itself and other events such as the launch of ticket sales or “100 days to go”, and to fulfil sponsorship obligations. The first branding activities in the city started in March and lasted until the end of July.

Promotional events

The events were divided into two main categories: test events and promotional events. The test events were organised with TWG sports federations and consisted of the organisation of competitions in particular disciplines at the Polish national and international level. These events aimed to both inform the fans about a particular sport, as well as testing organisational and marketing solutions for the organisation of The Games.

The promotional events consisted of a variety of activities ranging from the presence of a brand-promoting stand at local events to major cultural and sporting events such as “Europa na Widelcu” or Wrocław Marathon. Besides the information stand, TWG workshops and sport presentations were organised at each of these promotional events.

Table 1. The World Games 2017 events.

Event	Date
Marathon of Sports of The World Games	10.10.2015
ECC Active Parks	10 - 11.10.2015

BBQ with The World Games 2017	25.05.2017
Floorball Świdnica	23-25.06.2017
Pre-schooler Day	06.06.2017
Health Aces	07.06.2017

IWGA Flag Road Show

The ceremony of handing over the flag of The World Games has been carried out in Wrocław educational institutions since 2015. The flag of The Games was brought from Colombia by the Mayor of Wrocław Rafał Dutkiewicz in 2013. Wrocław schools and kindergartens subsequently hosted the flag, but crucially they learned about the sports of The World Games 2017, met with sporting champions and took part in games and contests devoted to this greatest sporting event in Polish history.

This opportunity to learn about The Games in their educational institutions [kindergartens, primary schools, junior high schools and some higher education institutions] included a symbolic hand-over of the flag with additional activities for the participants. Children and young people not only showed their sporting and artistic talents but also took part in sports workshops in "The World Games Town".

It is worth adding that during its journey in the school year of 2016/2017 the flag was hosted at 25 educational institutions. Over 8,000 children and young people, teachers and parents could feel the atmosphere, try TWG sports and win exciting awards in numerous competitions.

The benefits for educational institutions, students and teachers included:

- an opportunity to present talents and skills of the children and young people in front of guests,
- an opportunity to participate in training sessions under the guidance of professionals in the disciplines played during the X World Sports Games – The World Games 2017, and
- learning about the history of The World Games.

Partners:

The Education Department of the Wrocław Municipal Office and educational institutions.

Summary, conclusions and recommendations.

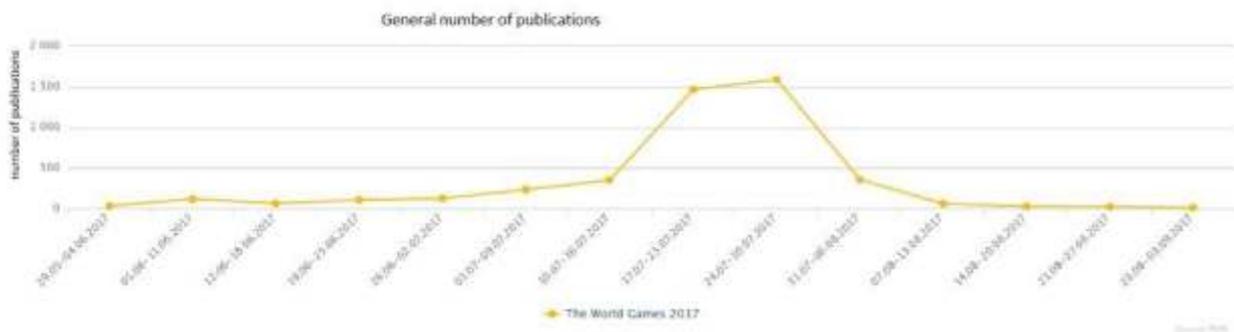

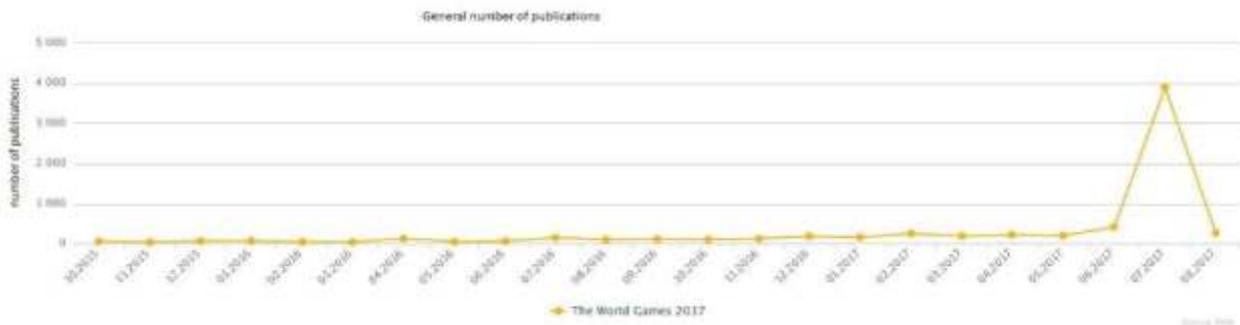

The media monitoring conducted by Instytut Monitorowania Mediów shows that the assumptions about media partners and patrons have worked, providing a broad coverage for the event and numerous publications. It is worth noting that only the traditional media was included in the calculation of the media equivalent value submitted below.

The World Games 2017 media reach

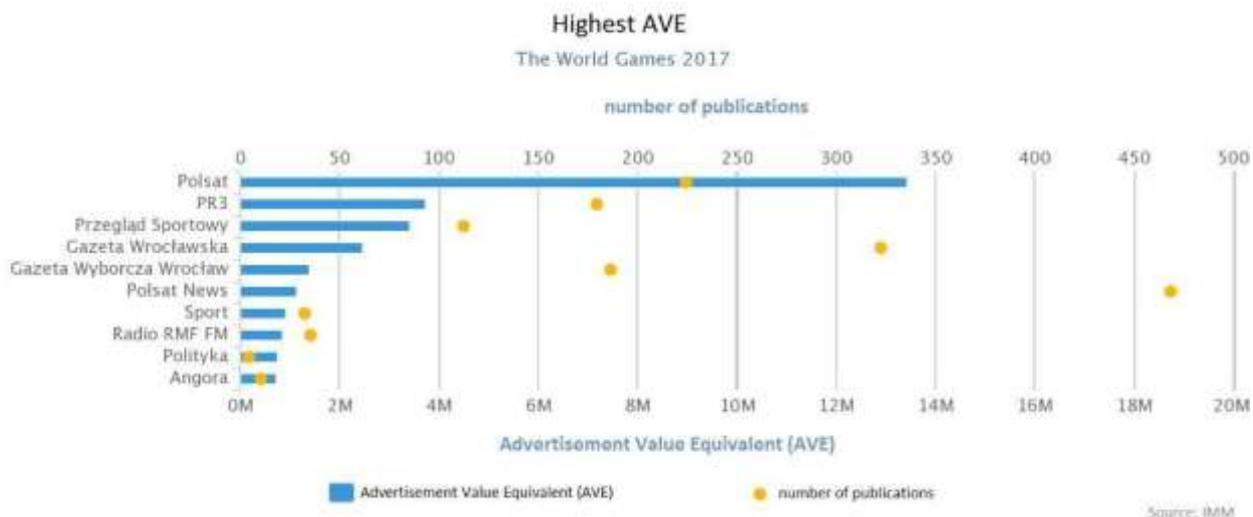

Media monitoring was conducted on two levels - on the Internet and in the traditional media: printed media, radio and television broadcasting companies in Poland.

According to a report by IMM, between 1 October 2015 and the end of August 2017, information about TWG2017 was published in the Polish traditional media 6,958 times, of which 2,189 were in print editions, mentioned 1,176 on the monitored television channels and 3,593 times in radio broadcasts.

The highest intensity of media coverage was reported from June to August 2017 when a total of 4,571 publications were published.

According to the report by Instytut Monitorowania Mediów, the total media equivalent value in the period of 1.10.2015 - 31.08.2017 in Poland was PLN 45,260,213, with the official broadcaster and patrons and media partners having the largest share.

In addition to the monitoring of traditional media, publications on Internet portals were also monitored. According to the Brand24 report, from 31 October 2015 to 31 August 2017, a total of 3,165 publications were published on Internet portals. Of these 1,534 were published from June 2017 to 31 August 2017.

The phrase "The World Games 2017" in the period from 1.10.2015 to 31.08.2017 was captured 44,453 times by the Brand24 monitoring, including 26,381 times within the period 01.06.2017 to 31.08.2017.

4. BRANDS, LOOK AND SOUND OF THE GAMES

General information

Large sports event organisers use a number of identifying elements to distinguish the event from other media accounts present in the public and media space. This is a generally accepted practice.

To ensure the expected level of recognition and awareness of The World Games, the following tools were developed and used:

- event Logo,
- visual Identity System [brand guidelines] to ensure consistency of all graphic materials,
- anthem and jingle of the Games,
- TV opening titles,
- mascot, and
- publications.

Logo

Commitment to create a logo and work on the logo design.

In order to apply as a candidate for The World Games 2017, the City of Wrocław was obliged to propose a logo design for The Games.

The Office of Sport, Tourism and Recreation of the Municipality of Wrocław chose Bystra Vision Sp. z o.o. as the logo contractor. The selection was made as a result of the tender proceedings, Bystra Vision Sp. z o.o. proposed three alternative logo designs.

To protect their brand, WOC and IWGA applied for registration of the trade mark which was entered into the register on 28 January 2014. This registration was made in accordance with the International Classification of the Figurative Elements of Marks [Vienna Classification] - VCL [7] 27.05.01 and International Classification of Goods and Services for the Purposes of the Registration of Marks [Nice Classification] - NCL [10-2014] for a fixed period until 28 January 2024.

Visual Identity System – Branding of TWG2017 Host City and Venues

All products and graphic designs for the branding of the city and venues were developed in accordance with the System of Visual Identity adopted by WOC, based on TWG2017 logo in various formats, according to the Key Visual of the sign. The dominant background colour in the visual identification was white, emphasising the colour of TWG2017 logo. WOC, when informing the public about upcoming Games or accompanying events, consistently applied the Key Visual, based on characteristic oblique shapes in pastel colours that could be unmistakably associated by the audience with the image of The Games. The consistent use of products based on the visual identification system allowed for good visibility and was distinctive in the urban outdoor advertising space.

When the outdoor campaign stage was being planned, products were simplified to include only the necessary elements. The reduction in the number of graphical elements allowed more "lightness" to be given to the products. The outdoor campaign content was readable and easy to remember by the public because key messages ["Sports Event of the Year" and "Closer to You"] were used consistently and the forms of presentation of Partners and Sponsors were unified.

Two stages of the brand exposure must be distinguished: the period before the Games and the period of the Games due to the purpose of these activities.

On the other hand, outdoor activities under the marketing strategy were divided, for organisational and practical reasons, into two areas: branding in urban spaces and branding of Venues and other Official Locations of TWG2017.

In the period before The Games, the marketing strategy for TWG outdoor promotions included activities within the City of Wrocław and in Partner Cities. The plan was to establish an intensive, three-month campaign covering a variety of ATL media and formats. The nationwide campaign was carried out mainly with online marketing tools and in cooperation with Polsat TV – the Official Host Broadcaster.

The aim of the outdoor campaign was to emphasise the scale of the event ["Sports Event of the Year"] and the diversity of the sports to reach a larger group of Wrocław residents, also for those who are less interested in sport and who want to look for new alternative leisure activities.

Messages on billboards and in bus stop shelters were linked with competition venues that were nearby. For example, the fighting sports and water sports taking place in the Orbita complex were advertised on billboards and bus stops in the vicinity of the Orbita Hall. These messages were labelled with the slogan "Closer to you", to emphasise that every resident of Wrocław in the neighbourhood may feel that they are a host to the Games and help support the best athletes.

It was also crucial to develop a template for visual communications [permanent space for website presentation, ticket information, partner information] including strong and visible information about ticketing.

For the duration of the Games, branding was one of the forms of visual identification of the event and mainly covered the city of Wrocław and all venues related to the organisation of TWG2017.

Examples of outdoor campaigns:

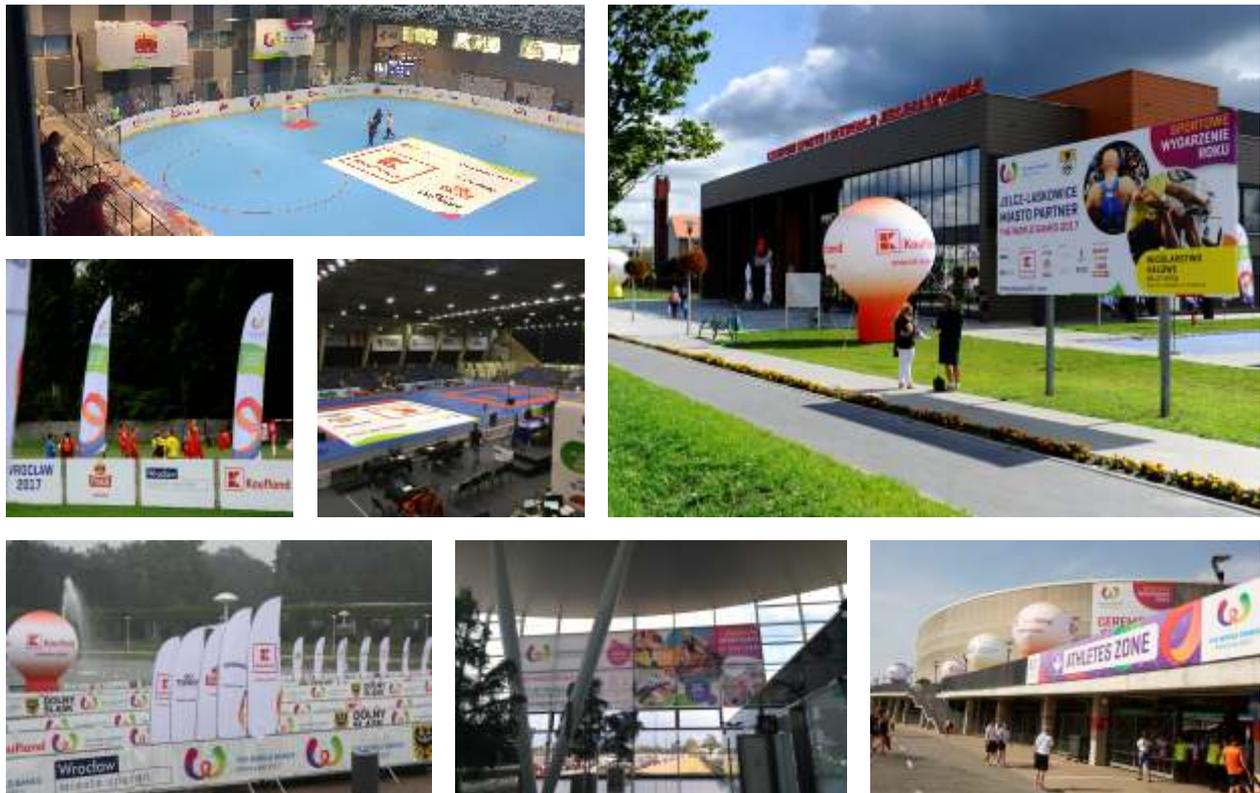

Branding of The World Games 2017 Venues

The World Games 2017 venues that were branded included the Competition Venues, athletes' accommodation sites, the Media Centre, the Volunteer Centre, the fan zone [World Games Plaza] and other official locations such as Wrocław Airport. There were over 50 facilities in total, located in the city of Wrocław and the Partner Cities.

The branding of venues included the following elements:

- fabric banners,
- beach flags,
- mesh banners,
- interlining product media,
- single- and double-sided walls,
- floor and window stickers,
- roll-up banner stands,
- monomeric film media, and
- and other less standard branding media.

Nearly 3,000 different materials were used in the production and implementation of Venue and Official Location branding. Comprehensive provision of the entire service was entrusted to one contractor: Flagowa Kraina Sp. z o.o.

Mascot

Selection of a mascot design

On 11 December 2013, a national art competition was announced for the creation of a character who would become the Mascot of the Games.

The competition was open to design teams made up of participants aged 6-19. The team could come from any educational institution, community centre or municipal cultural centre. The design was to be made using any artistic technique on a sheet of 100/70 cm paper or presented electronically. Details of the competition, its rules and full

regulations were available at www.wroclaw.pl. In total, 620 entries were submitted. From these entries, the panel of judges selected 50 proposals. Five entries were selected for the final round, and the winning design was chosen by Internet users in a poll conducted on the official website of the City of Wrocław, www.wroclaw.pl.

The results of the poll were announced on 16 February 2015, during a gala ceremony held at the Nowe Horyzonty Cinema complex in Wrocław. The ceremony was held with the participation of invited guests and the designers of the five final pieces of work.

The winning design titled "Jaś i Małgosia" [Hansel and Gretel] got 31.1% of the vote. The designers were students from the 3rd High School in Wrocław Magdalena Włoczka and Aleksandra Gromadowska.

Winning design

After the results of the competition were announced, the designers explained their choice and inspiration: "We searched for symbols of Wrocław, and because we are students at a school that has an architectural profile, we associated this with the Wrocław houses nicknamed Jaś and Małgosia [Hansel and Gretel], and additionally Jaś reminds us of a dwarf."

Jaś and Małgosia are two medieval houses on the north-west corner of Wrocław's Markt Square connected by an arcade. They were probably built in the 15th century and are one of the must-see landmarks and architectural symbols of Wrocław. The likeness between Jaś the Mascot and a dwarf refers to another Wrocław symbol and urban legend – one can come across a figurine depicting a dwarf in Wrocław almost everywhere.

During the contest, 15,856 votes were cast for the mascot of The World Games 2017. The first prize was a sports and tourist package. In addition, Internet users were able to select a "Work of the Month" from among other entries chosen by the panel of judges. The designers of those selected won sports equipment from The World Games disciplines for their respective schools or centres.

Once the winning entry was selected, there was an adaptation stage of the drawn characters to the production measures and large forms of promotional mascots [costumes for animators]. It was necessary to develop 2D and

3D models and a TWG mascot brandbook, that would allow a toy manufacturer to create plush toys. The brand booklet from the contractor gave details about how to reproduce the colours and features of the character [proportions, attributes like shoes, cap, details such as freckles, etc.], assuming technological simplification where necessary in the production of toys and costumes.

Production of the mascots

The production and delivery of advertising mascots were commissioned according to the production guidelines. The mascots have proven to be an integral part of the Games promotional campaign.

In order to carry out promotional and image work before and during the Games, three sets of TWG2017 official mascot costumes were purchased.

The sets presented were as follows:

Distribution of the mascots

The mascots were key in the promotional campaign of the Games. Their distribution was organised by WOC and their Partners during various types of promotional and sports events, including in schools, kindergartens, cultural centres, clubs and sports federations. Additionally, toys of the mascots were prizes in competitions organised on social media and on websites of WOC and Partners.

During the Games, toys [small mascots] were given to all medal winners and Athletes of the Day, and were included in VIP and volunteer packages. During the Games, fans could take part in daily competitions and events held in sports facilities and in the Fan Zone - TWG Plaza. The prizes in the competitions were The World Games mascots and gadgets.

Work of 'live' mascots during the Games

Like during other major sporting events, a decision was taken to hire actors who, dressed in official mascot costumes would entertain the public and promote the Games.

The activities of these actors included posing for photos with fans, encouraging the audience to cheer and playing with children. The work of the live mascots was supervised by a dedicated coordinator from the company providing the service.

Anthem

Like other major sporting events, and using the rights set out in the IWGA Agreement, WOC decided to produce a musical theme - the Anthem of the Games.

Having conducted market research and exploring the options available, a well-known Polish band Varius Manx was chosen.

fot. PAP

The Contractor, working together with the WOC team, defined essential assumptions about the production of the anthem of the Games, and then presented two proposals for the melodic line. Once the preferred melodic line was chosen, the lyrics were added.

Besides creating the work itself, an important element of The World Games anthem creation offer was the use of promotional elements in the national media.

The official unveiling of the Games Anthem took place on 10 June 2017 during the morning show “Pytanie na śniadanie” on Polish Public Television. Since then, the song has been used as a tool to promote The World Games 2017 on radio and television.

So far, the song has been viewed by 1,166,640 people on Youtube.

Link to the track: <https://www.youtube.com/watch?v=irLreINMJF8>.

According to the Rules of The World Games, WOC was also obliged to provide The World Games with a signature tune, i.e. a jingle designed for the purpose of the Sports Protocol. This sound was intended to make reference to the specificity of the Games and their dynamic and sporting character. The World Games tune was based on the soundtrack of the chorus of the Games Anthem and was used in all the Competition Venues not only during the ceremony, but also as background music for the whole of the Games.

TV Opening Titles

Opening titles producer

The opening titles to The World Games Programme Materials were developed by ATM System under an Agreement dated 20 November 2015. They were produced by Group 13 on the instruction of ATM.

Opening titles concept and design

The opening titles took 30 seconds. They contain elements of graphic animations, photographs and music.

According to The World Games 2017 concept by WOC, the titles present, among other things, the competition venues, athletes in selected disciplines and textual information supplementing the message.

The use of the opening titles during The World Games

They were used as a starting and ending sequence [intro/outro] for television broadcasts from various disciplines broadcast on television, both nation and worldwide.

Publications

A number of printed materials such as folders, flyers etc. were distributed by WOC before the Games.

There were several different graphic and text variants, including Polish, English, German, Czech and Brazilian Portuguese. In addition, special publications – brochures linking the promotion of Wrocław as the host city and the Games have been created for special events such as the CMM Meetings and WDSF European Championship Standard Dance.

Publications for the Games:

To develop printed materials for the Games, WOC set up a Working Team for Competition Publications in September 2016, composed of representatives of various departments of the Company. The team worked under the coordination of a Media and Marketing Department staff member. The team was supplemented by an employee of the Promotion, Tourism and Recreation Office of the Municipality of Wrocław.

The main aim of appointing this Team was to develop and commission the printing of materials [publications and

supplementary materials – i.e. dedicated city maps, leaflets, posters], for the purpose of an effective and efficient information policy in the Host City before and during The World Games 2017. The team was supposed to provide consistent quality materials for target groups that were defined in the IWGA agreement, and according to the internal needs and recommendations of various WOC departments.

The following publications were approved for printing:

	Name	Target group	Number of pages	Language version	Circulation
1.	Organisers' manual	Referees Coaches	4+148	ENG	1,000
2.	Technical book 32 versions [separate for each discipline]	Athletes Coaches Technical staff	Average: 4 + 48 pages	ENG	12,650
3.	Info guide	Volunteers Hospitality providers Taxi drivers Maintenance service staff	4 + 96 pages	ENG	2,000
4.	Media guide	Journalists, media workers	4 + 48 pages x 2 language versions	PL ENG	1,500
5.	The World Games 2017 20th-30th of July Wrocław, Poland	VIP guests	4 + 32 pages x 2 language versions	PL ENG	2,000
6.	The guide for fans	Residents Fans Tourists	4 + 48 pages x 2 language versions	PL ENG	80,000
	Total				100,500

Additionally, for the purposes of the promotional and information campaign the following items were approved for printing:

- promotional leaflets for events or trade fairs, language versions PL and ENG format: DL [99 x 210 mm], 2x10,000 copies,
- informational and promotional posters for distribution in schools, kindergartens, health centres, cultural centres, science and art centres, companies, tourist information points; format: B1 [680 x 980 mm], 10,000 copies,
- leaflets with delivery - non-addressed leaflets, distribution in mailboxes, 375,000 copies, format: DL [99 x 210 mm], and
- tournament flyers 2 x 30,000 copies.

The distribution of folders, leaflets and posters was carried out with the help of volunteers, Info-points employees and employees of the Promotion, Tourism and Recreation Office of the Municipality of Wrocław. The materials were distributed in over 50 locations in Wrocław and Partner Cities. The proper display of the printed materials at the Competition Venues was the responsibility of marketing coordinators.

Examples:

5. PARTNERSHIP AND SPONSORSHIP

General information

The rights and obligations related to the commercialisation of the Games are set out in the Agreement with IWGA and cover the following areas:

- sponsorship, i.e. the right to solicit Sponsors for TWG2017,
- merchandising i.e. the right to manufacture and sell branded promotional products, and
- partnership, i.e. forms of cooperation other than the above, in which the right to use the official titles related to TWG2017 is assigned to the Partners.

The agreement provided for the commercialisation of marketing rights by both WOC and IWGA, clearly distinguishing between Sponsors and Partners providing financial services and in the form of value in kind.

Sponsorship

Under the agreement with IWGA, WOC was entitled to encourage regional, national and foreign Sponsors and Partners to support TWG2017. WOC was obliged to develop a sponsorship concept that was subject to direct approval by IWGA. The proposed concept was approved by IWGA and became a basis for further action in this area.

The sponsorship concept allowed for the solicitation of both the Sponsors and Partners for TWG2017 and proposed defined sponsorship packages as part of the sponsorship offer.

IWGA entrusted commercialisation activities to the UFA Sports company.

The sponsorship strategy provided for soliciting Sponsors, who, according to the selected package, were granted a title of:

- General Sponsor – a guarantee of 16% coverage of the space intended for Sponsors, and
- Technical Sponsor – a guarantee of 6% coverage of the space intended for Sponsors.

The sponsorship package allowed for Sponsor marketing activities via TV commercials, radio advertisements, press releases, presentation of the Sponsor's brand on the Internet, printed materials, outdoor and branding campaigns during the Games, as well as in the campaigns before the start of the Games.

In pursuit of this concept, a partnership with the following companies was established:

- Uzdrowiska Kłodzkie S.A. Staropolanka – producer of mineral water,
- Kaufland Markety sp. z o. o. - chain of supermarkets,
- Kompania Piwowarska by World Media – producer of one of the most popular brands of beer,
- TISSOT – watches producer, and
- ELEIKO and SBD – distributor (provider) of sport equipment.

The title of the General Sponsor of TWG2017 was granted to Kaufland.

As a fulfilment of contractual obligations in the period before the Games, the Sponsors' logos were presented at the following locations:

- banners and billboards,
- the railway station,
- Wrocław Airport,
- MPK (Wrocław Public Transportation Company) bus fullback advertisement spaces,
- multi-format mesh banners,

- MPK bus stops,
- next to MPK timetables,
- street-exhibitions in the City Centre,
- tickets, and
- Internet [website, Facebook, Instagram].

As a fulfilment of contractual obligations, the Sponsors' logos were presented on 16% or 6% of the area of all sponsorship displays on the following media during TWG2017:

- advertising balloons,
- LED panels,
- LED screens,
- at the VIP reception area,
- roll-up banners in the VIP zone,
- other sponsor's roll-up banners,
- sponsor's walls,
- fixed banners around the pitches,
- at the playground,
- around the competition venues,
- stickers on the dance floor,
- banners hanging from the ceiling of the halls,
- inflatable walls,
- projection screens,
- around the martial arts mat,
- TV, and
- Internet.

Sample photos documenting the performance of the obligation:

Partnership

According to the guidelines of the sponsorship plan, the offers of cooperation between WOC and potential Partners were drawn up based on their particular needs defined during negotiation. All activities were aimed at the promotion of the Partner brands and the increase of their recognition in Poland and throughout the World.

WOC worked [cooperated] with the following partners:

- Kriosystem Life – Official Cryopartner of TWG2017,
- LOT - Official Air Carrier of TWG2017,
- TransDan – Official Logistics Provider,
- Media Patrons: Onet, Fakt, Przegląd Sportowy, Trójka Polskie Radio,
- Koleje Dolnośląskie S.A. – Official Railway Carrier of TWG2017,
- Stadion Wrocław – Official Stadium of TWG2017 Opening Ceremony, and
- National Forum of Music - Institution of Culture, as a competition venue.

PARTNER CITIES THE WORLD GAMES 2017

OFFICIAL SUPPLIERS

Merchandising

Under the agreement with IWGA, WOC was entitled to sell merchandise that included the logo of TWG2017.

Concurrently to the standard action taken in order to exercise this right, the General Sponsor also expressed interest in purchasing the right to sell these goods.

Having negotiated the terms of use of the trademark on the merchandising products, the rights to sell these products were included in the assumptions of cooperation with the General Sponsor and assigned to the Sponsor under a suitable contract. The General Sponsor was granted the right to manufacture and market (including in particular to sell) merchandise in Poland, including promotional items bearing the logo of The World Games Wrocław 2017, and paid an adequate flat fee for that right.

Any suggestions of the use of the sign were subject to approval by WOC. The use of the logo on the following items was defined: shirts, sweatshirts, phone holders, pens, memory sticks, earphones, notebooks, bags, silicone wrist bands, caps, car air fresheners, lunchboxes, mugs and thermal mugs.

6. TICKETING

Partner

Ticket sales and handling was carried out in cooperation with eBilet Polska Sp. z o.o. [eBilet]. The Partner's was tasked with providing a comprehensive ticketing service including online and brick-and-mortar sales in the period before and during the Games, as well as checking and handling tickets during the events listed in the Schedule of TWG2017, including the delivery of equipment and a ticket checking system.

Tickets

According to the developed concept, the ticket offer comprised individual and family tickets and discounts for school students, university students, seniors, the disabled and their assistants. Depending on the discipline schedule, all-day tickets or specific session tickets were available for sale. For most [26] disciplines, tickets for all days and sessions were also offered. A total of 199,507 tickets were made available for sale to the public.

Pricing policy

Due to the fact that the Games were financed from the budget of the City of Wrocław, it was assumed that the tickets should be within the financial means of most city residents, and therefore should not be expensive.

Sales

Ticket sales were conducted online via the website www.ebilet.pl, or by brick-and-mortar bookstores "Empik" chain in Poland and other facilities, such as travel agents working with eBilet.

On 15 February 2017, the pre-sale of tickets allocated to the International Federations was launched. Public sales started on 23 February.

During the Games, ticket sales occurred at the venues of TWG2017 and in the Fan Zone.

The sales results for individual disciplines are shown in Table 2.

Table 2. Ticket sales.

TWG2017 discipline	Number of tickets sold	Sales in%
Air Sports	2488	91,64%
American Football	20218	48,64%
Archery	1140	84,70%
Beach Handball	7856	77,13%
Billiards Sports	2050	100,00%
Boules Sports	1311	84,04%
Canoe Polo	2851	100,00%
Dance Sport	6447	100,00%
Finswimming & Life Saving	1578	89,66%
Fistball	3166	76,84%
Floorball	3967	82,85%
Flying Disc	7874	67,30%
Gymnastics	12913	88,54%
Ju-Jitsu	2288	100,00%
Karate	3917	100,00%
Kickboxing	4539	76,57%
Korfball	5040	64,12%
Lacrosse	4125	100,00%
Speedway	11536	100,00%
Muaythai	5294	89,52%
Orienteering	1566	100,00%
Powerlifting	1977	100,00%
Roller Sports: artistic, Inline hockey, speed skating	11244	94,41%
Indoor Rowing	643	49,31%
Sport Climbing	5604	94,98%
Squash	1515	99,15%
Sumo	3407	86,21%
Tug of War	1269	100,00%
Opening Ceremony	25501	98,06%
TOTAL	163 324	81,86%

Service during the Games

The venues were opened to ticket holders 1 or 2 hours before the start of competition, depending on the capacity of the specific venue. Ticket checking was carried out by eBilet's staff using scanners. The number of scanners and personnel was adjusted to audience size/venue capacity and the number of entrances/exits.

7. BROADCASTING

General information

As stated in the Agreement, WOC was obliged to ensure the production of a television signal from the Games at an international standard, covering at a minimum all finals and semi-finals of the disciplines covered by the official programme of the Games. They were also obliged to conclude an agreement with a TV producer - Host Broadcaster. The WOC's partnership with the Host Broadcaster was based on an Agreement concluded on 20 November 2015 with ATM System Sp. z o.o.

At the same time, the Agreement entitled IWGA to carry out an additional television production from The World Games 2017. In exercising this right, IWGA partnered with the Spanish company ISB.

Taking into consideration the mutual interest of the parties, the need to maximise benefits and the best use of resources, WOC and IWGA signed an agreement in March 2017 regulating the terms and conditions of collaboration for television production of the Games.

Host Broadcaster (HB)

ATM GRUPA S.A. is the largest independent television and film producer in Poland. It has operated since 1992 and is the only company in the industry to have the status of a public company listed on the Warsaw Stock Exchange. Companies in the group include ATM System and ATM Studio. ATM System operates a comprehensive range of equipment – outside HD broadcast vans, video and sound equipment, film and stage lighting, as well as post-production systems. ATM Studio manages a centre that has six television studios with storage facilities and offices.

Under the Agreement concluded on 20 November 2015, ATM System Sp. o.o as the Host Broadcaster of The World Games 2017 was obliged to produce an international television signal with live broadcast of the Programme Materials produced at the Games. The international television product comprised, among other things, coverage from sports competitions and special events and daily information on all The World Games 2017 medals [Daily Highlights]. The international broadcast was made by a continuous high quality signal with full international sound production and the effective coverage of the competition according to the EBU standard. In addition, according to the agreement, the HB had to broadcast approximately 99 hours of produced Programme Materials covering selected disciplines on Polish national television.

As a result of the contracting of an additional signal producer i.e. ISB, in March 2017 by IWGA, the scope of television coverage from the Games expanded significantly. Bearing in mind the common interests of the parties, a TWG2017 Programme Production Plan was agreed in the course of subsequent negotiations, to ensure the best possible use of the means of production set out in the Agreement with ATM System and owned by ISB. The number of hours of the Programme Materials produced in accordance with the Plan exceeded 538 hours.

A total of eight outside broadcast vans were used for TV production from the 14 locations of the TWG2017, allowing live or re-run broadcasts of 27 disciplines and the Games Opening and Closing Ceremonies. In addition, 6 ENG teams were involved in the production of footage from competitions and other events included in the Games Schedule. In total, nearly 600 people worked for television production from the Games in various areas.

The most technologically demanding undertaking was the production of broadcast from the Opening Ceremony, for which 16 state-of-the-art cameras were used, including a fly-cam and super slow-motion camera, as well as a techno-crane and tower-cam. The use of this equipment allowed for the production of attractive footage that was broadcast live, both internationally and in Poland – simultaneously on two broadcast services: Telewizja Polsat and Polsat Sport.

International Broadcasting Centre

Under the agreement, the HB was obliged to launch International Broadcasting Centre (IBC) - a TV signal broadcasting centre, located at ul. Dwa Światy 1 in Bielany Wrocławskie. IBC is a facility with an area of 1,200m² divided into dedicated spaces including: Master Control Room, eight video editing rooms, two voice cabinets, a booking room (broadcast coordination), Postproduction Server Room (server room, the core of the IBC). It is worth noting that this was the first time in Poland, that uncompressed image broadcast technology was used on such a large scale. The server room capacity amounted to 170 gigabytes/second. The IBC were collecting signals from outside broadcast vans from 14 locations. The signal was also sent to Madrid and Paris where an English voice-over was added. The signal was then sent back to the IBC, from where it was transmitted to a satellite, and then sent to broadcasters who had purchased the rights to broadcast the Games. It is worth noting that for the first time in the history of The World Games, the Programme Materials were broadcast by the official channel of the International Olympic Committee: Olympic Channel.

Signal distribution

The distribution of the television broadcast from The World Games 2017 was governed by the Agreement with IWGA, according to which WOC had the right to broadcast the materials in Poland, whereas the international broadcast was the responsibility of IWGA.

The right to broadcast the Programme Materials from the Games in Poland was granted in accordance with the Agreement concluded on 20 November 2015 to ATM System Sp. z o.o. as the Host Broadcaster of the Games. According to the Agreement, the HB was to exercise this right in collaboration with TV Polsat.

Grupa Polsat is the largest media and telecommunications group in Central and Eastern Europe. Apart from television companies, it comprises various telecommunications companies. Telewizja Polsat is one of the two leading private television groups in Poland in terms of revenue and market share. Its main channel, POLSAT, is one of the leading channels in terms of viewing figures, while their market share of the thematic channels is growing steadily. The channel portfolio of Grupa Polsat consists of 14 channels (all of them in HD quality), including entertainment, sports, news, music, lifestyle, film and kids channels.

As a part of the TV broadcast, the competition coverage was broadcast live, delayed, or as a coverage by ENG teams. The TV coverage comprised Programme Materials, which included sports events, competitions in individual disciplines including medal ceremonies and special events such as the Games Opening Ceremony and Closing Ceremony. The HB also produced a daily overview of the most important events, which included abridged coverage with the most important moments of the competition for those disciplines that were not reported live. This programme also included material from events at the TWG Plaza, Host City, reports and messages with a high social profile.

The number of channels on which the Programme Materials from the Games were broadcast increased from three as set out in the Agreement, to six. The World Games 2017 coverage was broadcast on: Polsat Sport, Polsat Sport Extra, Polsat Sport News, Polsat Sport Fight and Super Polsat. As a result of negotiations, the HB installed a TV studio at TWG Plaza to provide an appropriate environment for TWG2017 events and competitions, including professional commentary and expert opinions.

In addition, the HB produced a 10-minute coverage piece every day of the Games that was available free of charge to other television broadcasters in Poland who did not have full rights to broadcast the Games.

Apart from broadcasting on nationwide TV Polsat channels, the Programme Materials from the Games were also broadcast by regional television Echo24. Echo24 is an ATM subsidiary and local private television broadcaster constituting a continuation of the first Polish private local television broadcaster Echo set up in the 1990s. Today, Echo24 provides audiences with the latest news daily, commentary, weekend breakfast shows, sports or cultural news.

According to a preliminary report from IWGA, TWG2017 coverage has attracted 420 million viewers worldwide as part of television coverage that was broadcast in 131 countries. In Poland, from 20 to 30 July, an audience of over 12 million viewed the television coverage of TWG2017 disciplines on all Polsat TV channels. A total of 538 hours of material were broadcast on TV Polsat channels.

8. MEDIA SERVICE

General information

According to the Agreement, the WOC was obliged to organise and provide appropriate working conditions for media representatives. The IWGA recommendations included the creation of a Main Media Centre and facilitating timely access for journalists and photojournalists to the Games' venues.

Having this in mind, a Media Service Concept was developed, which provided for a well-equipped, centrally located Main Media Centre (MMC) that also provided additional services such as hot meals, and media sub-centres at the Games' venues that allowed both journalists and photographers to work comfortably. Free transportation between the MMC and the Venues was arranged as part of the media accreditation. Also, in addition to the dedicated transportation means, media accreditation holders were entitled to free public transportation.

In order to provide all parties with quality pictures of The World Games 2017 WOC hired a group of photographers whose task was to take pictures of all the competitions and official events of TWG2017. They were available free of charge from TWG2017 website.

The work of media at the venues was handled by press officers hired by WOC. Their additional task was to feed TWG2017 media team with content used on all TWG2017-owned media channels.

Media on TWG2017

For the purposes of the accreditation process, an application submission system was launched on 20 March. An EMS system was implemented to submit applications for media accreditation. Before 30 June 2017 applications for media accreditation were submitted by 609 journalists, including 161 applications for accreditation for photojournalists, 148 applications for TV, 31 applications for special accreditation for reporters and photojournalists working for International Sport Federations and 260 other types of accreditation.

The accreditation process ended on 20 June, although additional entries into the system were made in exceptional cases.

In total, accreditation was granted to 256 Polish and 323 foreign journalists, making a total of 579 people from 41 countries. This number does not include media representatives working for television producers and some of the associated technical staff working with broadcasters entitled to broadcast TWG2017.

Main Media Centre

The Main Media Centre was located at the info-point Barbara located at ul. Świdnicka 8 in Wrocław, in the city centre, 200 metres from the Market Square. The media centre operated daily from 20 to 30 July 2017 between 8.00 a.m. and 1.00 a.m., and from 18 to 19 July 2017 and on 31 July between 10.00 a.m. and 6.00 p.m. In the event of a crisis requiring a continuous communication service, there was the option to switch to a 24-hour operation.

The MMC was also home to a centre for picking up media accreditation, and the place where media packages and welcome packets were distributed.

The organiser provided nearly 140 workstations (desktop, chair, Internet connection), a chill-out zone, personal interview area, and daily catering - coffee, tea, water and cookies. Every day from 6 p.m. to 9 p.m., journalists were provided with a hot meal (meat and vegetarian options) in limited quantities, until stocks ran out.

The journalists had at their disposal on site, three press officers, a Media Support Team dealing with issuing accreditation and providing all information related to the logistics of the Games, and a group of trained volunteers.

The MMC was also home to the press office of the International World Games Association (IWGA) which was responsible for creating content on the IWGA website and for the IWGA social media feeds.

Media sub-centres at the TWG2017 Venues

In each venue, or in some cases for a group of venues, sub-centres for the media were arranged, equipped with workstations (seats, desks - if available, tables, Internet access). The venues had a general zone and an interview zone.

The media zone operation was supervised by a Media Officer who was responsible for coordinating the work of the media and helping with their duties. The Officers were mostly recruited from among journalists or people experienced in organising large sports events and in media relations.

An additional part of the Press Officers' role was to provide the working team in MMC with daily coverage containing a brief description of the course of events at the venue they operated in. These accounts were later used to create content for the website.

A total of 20 Press Officers were employed, each of whom handled two or three disciplines during the Games.

Transportation

Representatives of the media were provided with transport to all the venues of TWG 2017. Departures were from the MMC. The buses left for individual sessions of the competition so that journalists would arrive 45 minutes before the start of the competition at the latest.

Timetables were available on TWG2017 website, published in the daily newsletter sent to the accredited media and posted in MMC.

Press Conferences

During the TWG2017 there were seven press conferences organised by WOC:

20.07 – TWG2017 Opening Conference

20.07 - Conference before TWG2017 Opening Ceremony with Thomas Bach - the President of IOC

24.07 – Conference with Polish medal winners to sum up the first weekend of TWG2017

26.07 – Conference with the official service provider for TWG2017

28.07 – Conference with the Polish speedway team before the speedway competition

29.07 - Conference with athletes and coaches of the first three teams after the speedway competition

31.07 - Conference summarising TWG2017

In addition, IWGA organised daily briefings at the MMC at 11 am.

Summary, conclusions and recommendations

All the plans on media handling were implemented and fulfilled during The World Games 2017, which contributed to ensuring comfortable working conditions for media representatives.

It is worth noting that the quality of service in the sub-media centres was crucial because they were the places the journalists spent most of their time. An adequate number of work sites and a stable broadband Internet connection made it possible for media representatives at the venue to produce reports and upload photos and video materials. This also meant that they did not need to use the Main Media Centre to the extent predicted by the organisers.

Comfortable bus connections with the MMC were provided. Instead of buses rotating between the MMC and the venues, a decision was taken that they would depart only for particular sessions of the competition. This turned out to be a good choice, because the media representatives who, due to their accreditation, were able to move around the city by public transportation eagerly used this opportunity. This was largely due to the fact that the venues were located close to tram lines and near the city centre.

Buses going to the arenas outside Wrocław were used more. Venues without tram lines running from the city centre, or those with connections involving a change between lines also had higher bus travel.

Many journalists, some of whom know one with another from other competitions in particular disciplines, travelled by taxi. They shared the costs which were low in comparison with their countries of origin.

These conclusions may not be of a general nature and may result from the specificity of the host city and its public transport network.

No complaint about the quality of the working conditions was lodged with the organisers during TWG2017. The sub-centres, availability of a stable Internet connection for sending large files, and access to electric power sources were generally praised. Significantly, the journalists did not report the need to print materials, based entirely on the publications and on-line results provided by the organisers.

9. PROTOCOL

General information

According to the Agreement, WOC was obliged to organise and carry out the following elements of the Protocol of the Games:

- Opening Ceremony,
- Closing Ceremony, and
- Opening ceremonies, medal award ceremonies and closing ceremonies for 31 sports included in the sports programme of the event – 27 sports qualified for the official programme and 4 invitational sports.

WOC ensured they selected Contractors who provide the necessary material and personnel resources to carry out the work in a comprehensive manner. This took into account the IWGA's formal requirements defining the mandatory elements of the protocol for individual ceremonies.

Opening ceremony

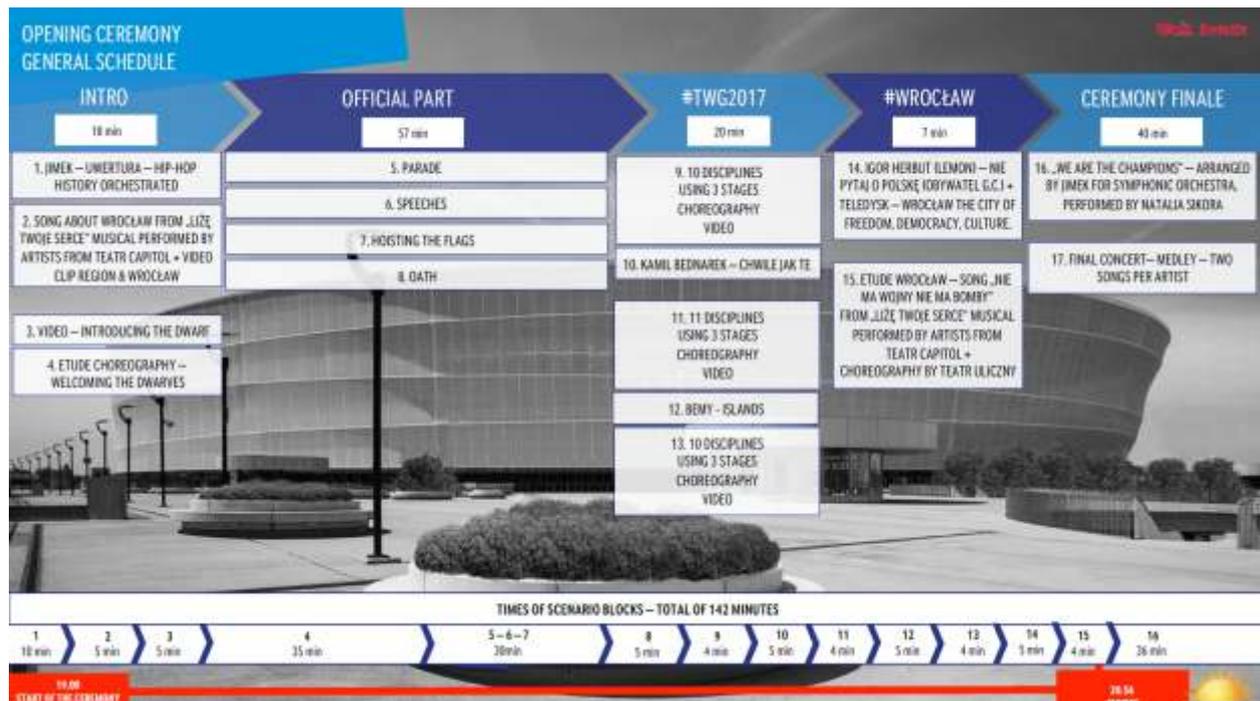

Due to the scale and complexity of the planned event, the selection of the Opening Ceremony producer was preceded by a technical dialogue procedure under the Polish Public Procurement Law. This procedure involved 11 agencies that are leaders on the Polish event market.

The tender procedure for the opening ceremony producer was announced in September 2016 and completed four months later. Seven event agencies took part in the tender procedure. An agreement for the comprehensive organisation of the TWG2017 Opening Ceremony was signed after the completion of this procedure in February 2017 with Walk Events Sp. z o.o. event agency.

The Ceremony was divided into six parts, made up of a musical and artistic show presenting the sports diversity of The World Games, promotion of the City of Wrocław, and included the obligatory elements required by IWGA, namely:

- the parade of athletes in national teams,
- official speeches by: the Mayor of Wrocław Rafał Dutkiewicz, the President of IOC Thomas Bach, the President of IWGA Jose Perurena,
- the official opening of the Games by the President of IOC Thomas Bach,
- bringing in the flags of IWGA, IOC, Poland and the City of Wrocław,
- hoisting the flags and playing the National Anthem of Poland, and
- the pledge said by the representatives of athletes, referees and coaches.

More than 400 artists took part in the event. In total, around 1,000 people were involved in the production of the Opening Ceremony on the Contractor's and WOC's part, including volunteers.

Infrastructure set-up began on 5 July, while rehearsals for the scenario part lasted from 14 July to 19 July.

Due to the complex system of production zones and the number of subcontractors involved in the preparations for the Opening Ceremony, it was decided to launch a separate accreditation system that was only used during this event. The system was based on multi-coloured wrist bands, which defined access to individual zones (10 different wrist bands were used).

An element that required special attention and careful planning was the athletes' participation in the Opening Ceremony (Athletes' parade).

The athletes came to the Opening Ceremony using dedicated buses, that were specially marked, and they were guided from the car park to two waiting areas - according to the sequence of the parade. Between the car park and the waiting area, there was a security check zone and storage. Snacks and drinks were provided in the waiting areas, and screens were set up, for the athletes to watch the ceremony until the time of their teams' parade.

During the parade, each country was led by a volunteer carrying a sign with the name of the country and an athlete with the country's flag.

The Opening Ceremony was attended by: 2,200 athletes from 112 national teams and 1,200 officials and invited guests. 26,005 tickets were available for sale, 98.06% were sold.

On the day of the Opening Ceremony two press conferences were held, including one with the President of IWGA Jose Perurena, the President of the IOC Thomas Bach, the Mayor of Wrocław Rafał Dutkiewicz, and the President of the POC Andrzej Kraśnicki.

Closing Ceremony

Having analysed various options, it was decided to hold the Closing Ceremony at The World Games Plaza (a Fan Zone location).

The Closing Ceremony plan included all the mandatory elements required by IWGA and contained general formal guidelines, guidelines for the presentation of TWG2017 brand and target group.

The ceremony production was entrusted to the cultural institution Biuro Festiwalowe Impart, which had experience of producing similar events and resources that enabled the comprehensive fulfilment of the task.

The Closing Ceremony was divided into two parts—the official part interspersed with artistic elements, and the concert part.

The main intention of the Ceremony was to thank the athletes, the audience, invited guests and international federations for their participation in the Games, the residents of Wrocław for their enthusiastic reception of the TWG sports community and for cheering on all the athletes, and the volunteers for their everyday hard work.

The ceremony started with a parade of athletes. The parade was led by volunteers carrying the flags of all the participant countries, after which the athletes marched divided into several groups. Each group was led by acrobats performing artistic shows during the parade.

The first part of the Closing Ceremony included the following elements of the official Protocol:

- speeches given by the official guests: the Mayor of Wrocław, the President of IWGA, and the Mayor of Birmingham, TWG2021 Host City,
- a presentation of the Host City for the next edition of the Games,
- the official closing of the Games by the President of IWGA, and
- handing of the Flag of the Games over to the representatives of Birmingham.

The second part of the Closing Ceremony consisted of a concert performed by Wrocław artists. The final concert part included elements of acknowledgement and entertainment for the athletes.

Sports Protocol

The opening ceremonies, medal award ceremonies and closing ceremonies for 31 sports included in the sports programme of the event - 27 sports qualified for the official programme, and 4 invitational sports, were carried out in accordance with IWGA guidelines as set out in the Rules of The World Games. These rules apply not only to the procedures in force during the course of ceremonies, but also to the number of presenters required to hand over the medals. In addition, the personnel supporting the course of the event, including the number of hostesses and hosts, depending on the number of athletes in the sport discipline concerned are subject to these procedures.

The Sports Protocol schedule included holding 31 opening ceremonies, 31 closing ceremonies and 219 medal award ceremonies.

In order to fulfil the above obligation, WOC carried out a tender procedure, which resulted in the appointment of the Contractor - Mult Fashion Agency from Crakow.

Under the contract, the Contractor was obliged to provide the staff and material resources necessary to conduct the ceremony in compliance with the concept and guidelines adopted.

The agency provided 86 people to support the ceremony, including 10 ceremony coordinators and 76 hostesses and hosts. Each coordinator was assigned a group of hostesses and hosts, who worked directly on individual ceremonies of the Games. These groups moved between various competition venues.

During the Games, the previously established ceremony plan was modified. The number of opening ceremonies and medal award ceremonies were modified due to atmospheric conditions, cancellations of competitions or direct ISF decisions.

Changes to the Schedule of Sport Protocol:

Opening Ceremonies: At the ISF's request, three Opening Ceremonies were cancelled: in archery, water skiing and wakeboarding, and in flying discs.

Boules: On 23 July, due to storm- damage which prevented the continuation of the competition, all the medal ceremonies were cancelled. The Venue Manager decided that they should be postponed to the next day. The Competition Manager decided that the raffa doubles category competition was cancelled, so no ceremonies were performed for these categories.

Indoor rowing: The competition in the 4x500m mixed relay category took place in a non-standard form, i.e. mixed teams composed of athletes representing different countries, which prevented the standard decoration [various flags and anthems].

Medals

Issues related to the manufacture of the medals are regulated, like medal award ceremonies, in the Rules of The World Games.

According to the Rules, medals intended for athletes in sports from the official programme of the Games should vary in size and form from the medals intended for athletes in invitational sports. The obverse of the medal could remain the same for both categories, and the official logo of the event had to be included within it. The reverse of both medals should contain elements characteristic of the host city and a varied graphic form.

WOC worked with a Wrocław-based artist and professor at the Academy of Fine Arts in Wrocław - Mateusz Dworski, who, having considered the guidelines, created two medal designs.

Based on the designs submitted, Mennica Polska od 1766 Sp. z o.o. (the Mint) was commissioned to manufacture the medals.

The Mint produced:

- 1,950 medals for sports from the official programme of the Games, including 543 commemorative medals, and
- 372 medals for invitational sports, including 72 commemorative medals.

The design and manufacture of ribbons for the medals were entrusted to a local company - PANATO of Wrocław.

The contractor produced, according to the design approved by WOC, 1,407 ribbons with a width of 2.5 cm for medals for official programme sports and 300 ribbons with a width of 2.00 cm for invitational sports.

Summary, conclusions and recommendations

Assumptions made at the concept development stage of the ceremonies were largely modified during the course of the Games, including due to the ISF's lack of knowledge of IWGA ceremonial rules as defined in the Rules of The World Games.

It is important to include an additional WOC representative responsible for the coordination of Sports Protocol activities in the venue management structure. It is also recommended that the ceremony-handling group [a coordinator with a group of hostesses and hosts] be assigned to a specific venue.

Due to regularly occurring problems with the correct presentation of anthems and flags during major sporting events, it is recommended that a database of flags and anthems be provided by IWGA. It is also recommended that at least one IWGA representative be responsible overall for the day-to-day running of the Games with the Organising Committee regarding the sports ceremonial rules, both before and during the Games.

10. SERVICES AND ASSISTANCE

Security

General information

The Act on the Security of Mass Events sets out the duties of a mass event organiser and the rights and obligations of public institutions in terms of security and safety during cultural and sport events organised by them. Because of this Act, there was no need to introduce special legal regulations in Poland for the duration of TWG 2017.

According to Polish law, the organiser of a mass event should apply to the competent local public authority for their consent for the event to be organised. This application must be accompanied by statements issued by: the National Police, State Fire Service, Border Guard [when within a border area], the Armed Forces [if the event is to be held in an area administered by the Armed Forces of the Republic of Poland], construction supervision authority, sanitary inspectorate and others, according to the specific nature of the event to be held [e.g. water sports, aviation sports etc.].

Despite the precisely defined division of responsibilities in security matters between the public and private sectors, it was in the interest of both WOC and Public Authorities to guarantee the highest level of security and safety to participants, fans, guests and Wrocław residents during the entirety of TWG2017.

Objectives and assumptions

The overriding objective was to ensure the safe course of TWG2017 while keeping a sense of security among residents of the Host City at an unchanged level. This was a key consideration in the planning stage and a considerable effort was made to ensure it. The first security outline plan containing a risk analysis and an estimate of resources necessary was developed by the WOC as early as 2014. The plan was then submitted for opinion to competent institutions responsible for public security. At the same time, cooperation with those institutions was established. Meetings were regularly held between a wide range of entities involved in ensuring security for The Games and public spaces. At the same time, direct operational cooperation and information exchange arrangements were established with individual services and institutions.

The Lower Silesian Voivode invited representatives from WOC to meetings of the Regional Interdisciplinary Team for Mass Event Security regularly. TWG2017 preparation status and security became a permanent item on the Team's agenda.

For the purposes of the Games, security services were entrusted, to a specialist security agency IMPEL Security Sp. z o.o. [hereinafter IMPEL S.A.] following an appropriate public procurement proceeding. Their responsibilities included ensuring security of mass events, ensuring security of non-mass events held as part of TWG2017 programme and physical protection of Venues and other official locations of the Games. The contract provided for the IMPEL's obligation to delegate to WOC their eight security coordinators. They were responsible for working with the Organiser's team on developing operational plans, regulations and the documentation necessary for obtaining opinions, approvals and permissions as set out in the Act. The delegated coordinators joined the WOC's security structures six months before the beginning of the Games. During the event itself, they exercised operational supervision and control over operational activities of TWG2017 venue security managers.

Accomplishment of the activities

The number of information and security services staff taking part in TWG2017 events between 20 and 30 July 2017:

Date	20.07	21.07	22.07	23.07	24.07	25.07	26.07	27.07	28.07	29.07	30.07
Number of employees	914	586	811	596	716	626	660	562	629	725	481

The total amount of man-hours worked exceeded 86,000.

The operational management of the security area as part of the Organiser's activities was exercised at the following levels:

- WOC security and protection manager,
- WOC security and protection coordinator,
- WOC communications coordinator,
- Eight IMPEL security coordinators,
- IMPEL staff coordination manager,
- Security Managers at each venue where mass events were held, and
- organiser's information and security services staff number adjusted to the number of participants of the sport or cultural event.

Cooperation with security services

WOC collaborated actively with the Police. They provided over 500 crime prevention, operational, traffic and anti-terrorism officers for the protection of the Games. Additional support was given by the Internal Security Agency, Military Counterintelligence Service, State Fire Service, Border Guard, Wrocław Municipal Police and other services and inspectorates.

Increased security of the Games was achieved by:

- granting the authorised services (the Police, Internal Security Agency, Military Counterintelligence Service) access to personal data bases for appropriate threat verification in their systems,
- explosive inspections at defined Venues,
- covering the supervision of water sports competitions held on an open section of the Old Oder River by the Wrocław Water Police Station and the Water Volunteer Rescue Service,
- upon the WOC's request, the Police provided escort support for VIP guests along specific routes, and
- securing, in preventive and operational terms, all competition sites, accommodation centres and other sites related to the organisation of the Games.

Summary, conclusions and recommendations

The following incidents, which could have affected security, were recorded:

- an intense weather phenomenon in the form of a storm combined with a gale and heavy rain,
- single occurrences of misbehaviour by event participants (alcohol abuse, refusal to obey instructions from the security services).

Several cases of missing belongings were also recorded, including documents and accreditation passes.

Throughout TWG2017 no events of a terrorist nature were recorded. The security services did not alert of any cases of a preparatory terrorist nature.

Single criminal incidents (theft) did not negatively affect the course of the event with regard to the sense of security of the participants and residents.

In order to secure TWG2017, there were alterations to and deviations from the assumptions taken in the operational plans adopted. It is crucial for an organisation responsible for security to ensure flexibility to the extent appropriate to the scale of the Games. IMPEL showed a very good understanding of the nature of the event and was prepared for responding to such situations as needed.

A total of about 1,650 security professionals, excluding technical services, provided security of TWG2017 in Wrocław, Trzebnica, Świdnica and Jelcz-Laskowice.

Medical services

General information

According to the Agreement for the organisation of The World Games 2017, WOC was obliged to provide first aid assistance for participants of TWG2017 and efficient transport to dedicated hospitals if required.

At the same time, the Agreement provided for the provision of physiotherapy services by the International Federation of Sports Chiropractic (FICS) during the Games.

Objectives and assumptions

To clarify the requirements, WOC sent a form to the ISFs on which the Competition Managers, in accordance with the respective ISF regulations, determined the necessary level of medical assistance for particular competitions.

The legal basis for the organisation of medical assistance for spectators was the Regulation of the Minister of Health of 6 February 2012 on the minimum requirements for medical coverage of a mass event.

All these activities were supervised by the IWGA Medical Commission with the aim of ongoing work with WOC in defining needs and continual case analysis during TWG2017.

Service provision

During the Games, medical services were provided by a professional provider, i.e. the Emergency Medical Service [Pogotowie Ratunkowe] of Wrocław.

The Emergency Medical Service provided medical assistance at all Official Venues of the Games, i.e.: Competition Venues during the Games and on training days, at Accommodation Centres and hotels, Accreditation Centres, Catering Centres, at the IWGA Headquarters, The World Games Plaza and during the Opening and Closing Ceremonies.

The Medical Assistance Plan provided for the following forms of services at Official Venues:

- ambulance teams with a medical doctor,
- ambulance teams without a medical doctor,
- paramedics patrols,
- medical points, and
- doctors on call.

The medical team work was coordinated by the Medical Security Coordinator from the Emergency Medical Service along with a group of Medical Assistance Managers at the venues.

The function of the Main Doctor of the Games was provided by WOC, whose work included, among other things, direct cooperation with the IWGA Medical Commission and supervision of the service delivery process.

From 17 July to 31 July, 530 interventions by medical teams were reported at all TWG Official Venues, including 52 transports to hospitals and nine cases of patients' refusal of a hospital referral. A total of 281 of the medical interventions concerned athletes, of whom 37 were transported to hospitals. None of the athletes were hospitalised. The most common causes of medical intervention provided to athletes included injuries related to particular sports and fainting due to high temperatures.

There have been no cases of suspected infectious diseases or exceptional occurrences.

The patients were transported to four dedicated hospitals in Wrocław and in Świdnica, all who had service agreements signed with WOC.

There were more than 480 people [doctors, paramedics and nurses] involved in the medical assistance, with a total of up to 40 ambulances in use per day.

Summary

To properly plan and organise medical assistance arrangements, the medical partner must be contracted a minimum of nine months before the Games.

FICS

During the period from 20 to 30 July 2017, 35 chiropractors and 3 coordinators, who were delegates of FICS, provided rehabilitation services to athletes and sports personnel during TWG official training and Competition days.

The chiropractors were present during the competition at all disciplines except three [air sports, boules and artistic roller skating]. The services provided by FICS enjoyed considerable interest among Games participants, with on average 35 treatments a day at each venue.

Summary

Conclusions and recommendations:

- In order to reduce misunderstandings, the rules of cooperation (e.g. uniform colour, availability of equipment, etc.) should be precisely defined and written down.
- The ISFs (especially in invitational sports) should be told about the option of using these services.

Anti-doping tests

General information

According to the Agreement with IWGA and the Rules of The World Games, WOC was required to create conditions and to provide resources to conduct anti-doping tests on not less than 5% and not more than 10% of TWG2017 participants.

The standard and type of examination for each sport is regulated by the World Anti-Doping Agency [WADA].

Objectives and assumptions

To correctly carry out doping controls at TWG2017, WOC signed an agreement to work with the Polish Anti-Doping Agency - an authority appointed and authorised to conduct inspections in Poland according to the Act on Sports. This agreement was signed with the support of the Ministry of Sport and Tourism, which finances the statutory activities of the Agency.

The quantity and quality of samples and the rules of cooperation were discussed at two meetings with the IWGA Medical Commission [2016 and 2017]. The controls would be carried out in accordance with the applicable WADA procedures.

Implementation

To fulfil this obligation, the Polish Anti-Doping Agency took 389 anti-doping samples during 69 control missions completed in 11 days.

The first controls were carried out on 20 July, and the last ones on 31 July 2017. The controls were carried out both in the "on-competition" and "off-competition" systems.

The anti-doping team was composed of:

- three coordinators,
- 27 anti-doping controllers (including: five from the UK, one from each of the following countries: Barbados, Belarus, Czech Republic, South Africa and Slovakia),
- 10 phlebotomists, and
- 35 volunteers.

All the anti-doping documentation was forwarded to IWGA on 31 July 2017 and put in the Adams System by 15 November.

Conclusions and recommendations

A representative of the National Anti-Doping Agency should be included in the early stages of preparation for TWG to ensure effective planning and subsequent implementation of the controls.

Accreditation

General information

According to the Agreement with IWGA and in accordance with the provisions of the Executive Agreement between the parties, an accreditation system was supplied by an IWGA Partner, the Swiss Timing company.

According to the provisions of the Agreement with IWGA and Rules of the World Games, WOC was obliged to provide accreditation to each participant of the Games.

Objectives and assumptions

In carrying out these commitments, WOC gave absolute priority to ensuring the security of the Games, taking into account the provisions of the Act on the Security of Mass Events dated 20 March 2009 [Journal of Laws, item 2139]. To this end, key elements of the accreditation system, participant groups and accreditation types were defined.

Key elements of the accreditation system:

- Registration and verification of participants with the electronic accreditation system,
- Division of the Official Locations, in particular the Competition Venues, into access zones,
- Assignment of access rights to individual groups of participants, and
- Production of ID badges for participants, allowing access to specific zones in selected venues.

Participant categories:

- VIP guests,
- IWGA,
- athletes,
- ISF officials,
- representatives of the Olympic Committees and sports organisations,
- media,
- external services,
- volunteers, and
- Wrocław Organising Committee.

Types of accreditation:

Accreditation passes differed in colour, so that each group was easily recognisable by the security personnel:

- VIP – gold,
- IWGA – red,
- athletes/Olympic Committees/sports organisations – light blue,
- IFS officials – dark blue,
- media – yellow,
- external services – green,
- volunteers – purple, and
- WOC – black.

Bearer accreditation passes:

Due to the Act on the Security of Mass Events and functional considerations with TWG2017 accreditation system, bearer accreditation passes were used.

Under the requirements of the Act, the bearer accreditations were issued to the security personnel.

The bearer accreditations were also issued for representatives of external services such as cleaning, technical and venue maintenance services in situations where it was impossible to collect personal details and define access rights due to the high rotation rate of personnel on work sites and between the venues.

Due to the lack of accreditation centres at particular Sports Venues, it was decided to introduce two additional types of bearer accreditations: Day Pass and VIP Guest.

Day Pass accreditation: depending on the size of the venue, each Venue Manager had at their disposal a sufficient number of Day Pass accreditations. These passes could be used in emergency situations where it was reasonable to allow access to a given person who for objective reasons could not be accredited via the usual accreditation system. Venue Managers were required to maintain a register of Day Pass accreditations issued.

VIP Guest accreditations: given the fact that plans of VIP guests often change, even at the last minute, the Management Board of WOC, had at its disposal a VIP Guest accreditation package entitling them to enter the VIP zone at any sports venue in order to ensure a level of hospitality according to the status of the event.

Location of the Accreditation Centres

In order to streamline logistics processes, a decision was taken to link the locations where accreditation passes were picked up with accommodation locations, and the idea of establishing one central Accreditation Centre was given up. Due to this way of organising the last stage of the accreditation process, the time spent by each participant on formalities was reduced significantly.

Process implementation

Accreditation system

The Event Management System [EMS] created by Swiss Timing was launched in early 2017 in order to allow WOC to perform functional tests. As a result of the collaboration between WOC and Swiss Timing, the following adaptations were agreed and implemented:

- A module allowing users to enter data about arrivals and departures of participants.
- Additional reports generated directly from the system, including a report for security services, a media report, a participant details report arranged by disciplines.
- Additional filters in the system to help users find the information needed.
- A function that generated an invitation letter for the purposes of visa application directly in the system.

On 1 March 2017, the system was opened for international sports federations who from that moment were able to register their participants on it. Each application had to be accepted by WOC or by WOC upon prior approval by IWGA.

Visa procedure

In March 2017, representatives of WOC met with representatives of the Polish Ministry of Foreign Affairs to inform them about the planned course of the event, the number of participants and the expected countries where the participants were from.

It was agreed that only collaboration between WOC and the Ministry of Foreign Affairs would ensure the smooth running of visa proceedings, while ensuring the security of both the participants and Polish citizens. To achieve this, the Management Board of WOC sent a letter to Polish embassies and consulates requesting support for TWG2017

participants in their visa procedure. In return, embassies and consulates were given access to the accreditation system for the direct verification of visa applications. Both during the organisation period and the Event itself, WOC kept in touch with Polish diplomatic missions and the Border Guard, who confirmed the identity of participants in case of doubt.

Bearing in mind that any visa application must be supported by an invitation issued by a person or entity in Poland, WOC decided to use features of the accreditation system for that purpose. An invitation letter template was imported to the EMS system by Swiss Timing. Participants were able to download a document with data pre-populated according to information provided in the accreditation system.

Production of ID badges

The printing of ID badges (lanyards, laminates, ID badge obverses, holograms) and provision of equipment necessary for the operation of an accreditation centre (printers, laminators, software, etc.) with technical support throughout the duration of the Games were entrusted to an external partner.

A total of 19,688 ID badges were produced: 9,488 personal accreditations and 10,200 bearer accreditation passes.

The detailed data is presented in Table 3.

Table 3. Number of Accreditations by Category.

Category	Number
Athletes	3,245
Extra Officials	1,230
IF Passport Officials	823
IWGA	65
Media	686
Olympics Committees/sports organisationa	182
Services	1,162
Volunteers	1,393
VIPs	315
Wrocław Organising Committee	387
Bearer accreditation passes	10,200
Total	19,688

Management structure and places of service provision

TWG 2017 accreditation service was in six major locations:

- Accreditation Centre located in the Dormitory "Ślężak" [campus of the University of Economics], ul. Kamienna 33, Wrocław; this provided accreditation for participants staying on the campus of the University of Economics, as well as WOC, cooperating services and Olympic Committees.
- Accreditation Centre located in the Dormitory "T-16" [Wrocław University of Technology campus], ul. Wittiga 4, Wrocław; this provided accreditation for participants staying on the campus of Wrocław University of Technology and volunteers.
- Accreditation Centre located in the Novotel hotel, ul. Powstańców Śląskich 7, Wrocław; this provided accreditation for sports officials staying at the hotel.
- Accreditation Centre located in the Ibis Styles Wrocław hotel, Pl. Konstytucji 3 Maja 3, Wrocław; this provided accreditation for guests staying at the Ibis Styles Wrocław hotel and other hotels located nearby: Piast, Polonia and Europejski.
- Accreditation Centre located at the Infopoint Barbara, ul. Świdnicka 8b, Wrocław; this provided accreditation for media representatives.

- Accreditation Point located at the Sofitel hotel, ul. św. Mikołaja 67, Wrocław; this provided accreditation for VIP guests.

An additional site was the mobile accreditation point, fully equipped and prepared for the participants, whose accreditation at the regular accreditation venues was difficult due to logistical reasons. The mobile accreditation point carried out accreditation for participants staying in:

- Hotel Jasek, ul. Sułowska 39, Wrocław,
- Hotel Ibis Styles Wałbrzych, ul. 1 maja 70, Wałbrzych, and
- Hotel Boutique Hotel's Solo, ul. Kwiska 1/3 Wrocław.

The mobile accreditation point was also used at the Olympic Stadium in Wrocław as one of the accreditation sites for speedway competition participants.

The structure of managing the accreditation process is described in Diagram 4.

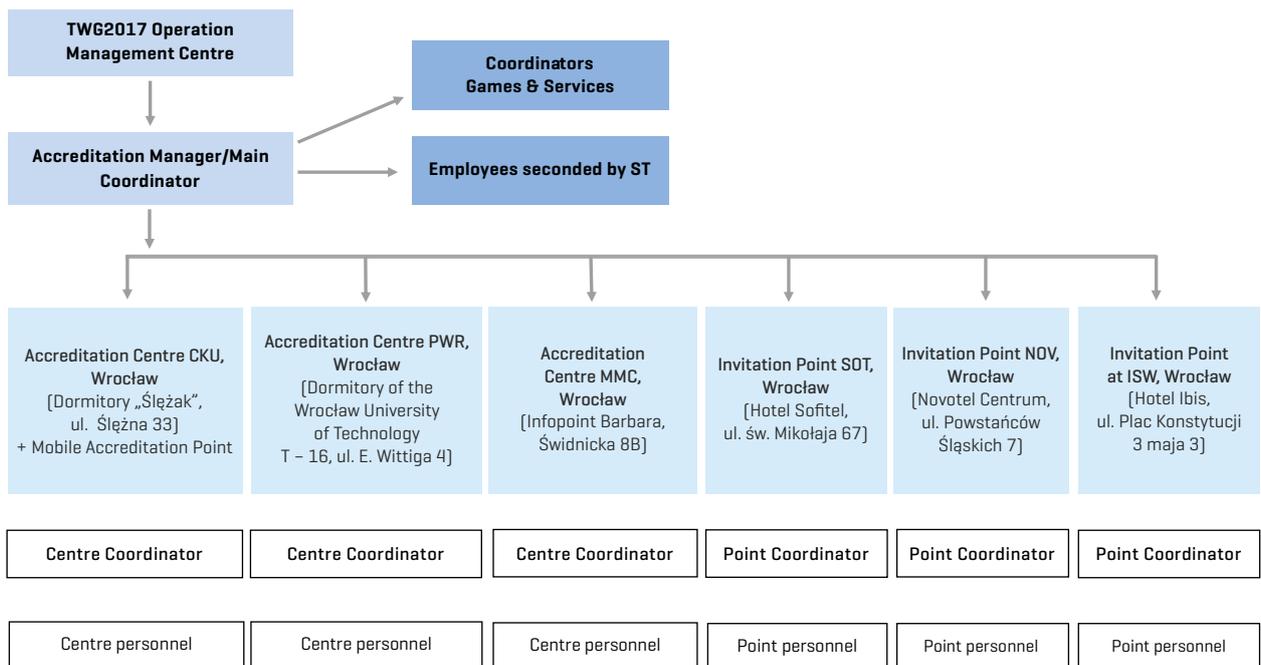

Diagram 4. Managing the accreditation process for TWG2017.

Summary

- It is crucial to inform the partners who carry out particular tasks as part of the organisation of the event that they need to provide their employees' personal details in advance, preferably during the initial phase of looking for contractors for particular services. To this end, it is recommended to agree upon the relevant contractual terms. This will allow the accreditation process to be carried out smoothly well in advance of the event, which is essential for ensuring security, and will consequently reduce the number of bearer pass accreditations.
- A significant consideration for the future organisers of The World Games would be to define in the Rules of The World Games the deadlines for registering participants with the accreditation system. Participants were not always aware that the organiser having this data was crucial because of the need to provide other services such as accommodation.
- There seems to be a clear division of roles between the ISF and the Olympic Committees (NOCs), who are not always aware of the difference in format between the Olympic Games and The World Games. To avoid misunderstandings, it is necessary to precisely define the roles played by these entities during the event.

Transport

General information

According to the Agreement with IWGA and the Rules of The World Games, WOC was obliged to provide local transportation services for the following categories of people:

- athletes,
- IFS officials,
- IWGA, and
- VIP guests.

This obligation included transport from the participants' place of arrival, local transfers between accommodation sites and the competition venues and return to their place of departure from Wrocław.

In addition, WOC was obliged to provide transportation for FICS and an adequate transport system for media representatives, including transfers between the Main Media Centre and Sport Venues.

Objectives and assumptions

To meet these obligations and to ensure a satisfactory level of service for particular customers, the following target groups were identified in TWG2017 Transport Plan:

- VIP and VVIP guests,
- athletes and IFS Officials,
- media,
- FICS,
- Wrocław Organising Committee, and
- fans.

TWG2017 Transport Plan provided for an adaption of the service to the specific nature of handling individual groups of guests.

Table 4. TWG2017 transportation services

Group	Characteristics	Service standard
VVIP	<ul style="list-style-type: none"> Government representatives Selected representatives of international sport organisations and federations Selected representatives of the IWGA Executive Committee 	<ul style="list-style-type: none"> Airport shuttle from/to the accommodation site. Media	<ul style="list-style-type: none"> Journalists and media representatives 	<ul style="list-style-type: none"> Transport on the route "the Main Media Centre – competition venue" according to the daily competition schedule. Additional transport to special events (Opening Ceremony, TWG Party, Closing Ceremony). Use of the free-of-charge Wrocław municipal and metropolitan public transportation service under valid TWG2017 accreditation. Support from volunteers working with the media.
Volunteers	<ul style="list-style-type: none"> Volunteers 	<ul style="list-style-type: none"> Use of the free-of-charge Wrocław municipal and metropolitan public transportation service under valid TWG2017 accreditation. Access to athlete and referee local transportation granted to volunteers serving as assistants of sports or teams. Use of volunteer dedicated transportation in cases where the schedule or distance to the competition site makes it reasonable.
WOC	<ul style="list-style-type: none"> WOC personnel 	<ul style="list-style-type: none"> Use (upon prior ordering) of company vehicles (cars and vans) that were hired or provided by a Technical Partner. Free-of-charge taxi service in a closed route system. Use of the free-of-charge Wrocław municipal and metropolitan public transportation service under valid TWG 2017 accreditation.
Fans	<ul style="list-style-type: none"> Holders of tickets for competitions or special events and people wishing to take part in free events (including TWG Party, Closing Ceremony) 	<ul style="list-style-type: none"> Recommendation for using public transportation under general terms. Additional public transportation rides or lines arranged as needed.

To fulfil the Transport Plan, WOC worked with the following organisations, according to the provisions of the Order of the Mayor of Wrocław No. 3564/16 dated 17 February 2016 and No. 5590/16 dated 20 October 2016:

- Wrocław Public Transportation Company [MPK], whose main task was to secure the vehicles needed for the provision of the tournament transport services,
- Department of Transport of the Wrocław Municipal Office, whose task was to develop the Transport Concept for TWG2017, and
- Department of Urban Engineering, whose task was to organise traffic during TWG2017.

WOC was responsible for developing the Transport Plan of TWG2017 working directly with the parties above, activity coordination of all the organisations involved and ensuring that vehicles be provided for:

- competitions held in Świdnica and Wałbrzych,
- target groups of VIPs and VVIPs,
- FICS, and
- Wrocław Organising Committee.

The Transport Department developed routes and lines dedicated to each discipline or competition venue, including media-dedicated transportation, and developed a transportation plan for fans moving between the venues.

On this basis, the number of vehicles required for transport services, airport transfers and special events i.e. the Opening and Closing Ceremonies and the Athletes' Party were determined.

The Department of Urban Engineering developed a Provisional Traffic Organisation applicable for the period of TWG. Together with the Municipal Road Administration and Maintenance Authority, this was put into operation.

The dedicated VIP transport service was planned to be a system of transportation on demand available between the Official Venues of the Games. Organising the service this way, provided the necessary flexibility and service standards while minimising issues related to the need to provide parking space for tournament transport vehicles at TWG2017 Official Venues. Dedicated cars with drivers were planned for a defined group of VVIP guests.

Service provision

The provision of services under the TWG2017 Transport Plan started on 18 July and ended on 31 July 2017.

Dedicated services were launched for transporting the athletes, referees, technical delegates and the media, using 70 buses and three trams.

A special taxi service was provided for VIP and FICS guests, with cabs circulating in a closed-route system, i.e. cabs available on demand for the transport between the Official Venues.

For the needs of VVIP guests, eight cars with a driver were provided.

Dedicated individual transport services were also provided for the IWGA Medical Commission.

An additional eight vehicles, i.e. eight buses, were provided as a reserve and they were available for use in emergency situations.

Apart from the dedicated transport organised for athletes, referees, technical delegates and guests, additional transport operations were organised for the fans, in order to support:

- The Opening Ceremony of the Games at the Wrocław Stadium on 20 July 2017,
- WKK Arena on the days of competition,
- "Kaufland Party" on 26 July 2017 at TWG Plaza,
- The Olympic Stadium after the speedway and American football competitions, and
- The Closing Ceremony at Plac Wolności on 30 July 2017.

One of the major challenges for TWG2017 transport service was hosting the Games Opening Ceremony. It was necessary to provide an appropriate number of buses, to synchronise times of their departures from many places in Wrocław, as well as efficient arrival and parking at the City Stadium.

Detailed data on transport operations during TWG2017 are presented in Table 5.

Table 5. Transportation operations in numbers *

Day	Number of buses in service for TWG*	Number of trams in service for TWG*
18 July 2017	10	0
19 July 2017	17	0
20 July 2017	70	25
21 July 2017	43	3
22 July 2017	46	11
23 July 2017	44	3
24 July 2017	49	9
25 July 2017	49	3
26 July 2017	44	3
27 July 2017	42	3
28 July 2017	42	3
29 July 2017	41	10
30 July 2017	40	3
31 July 2017	11	0
Total time of the service provision	7,283 hours	714 hours
Total distance travelled in km	45,158 km	8,133 km

*- number of all vehicles involved in the transport of athletes, referees, technical delegates, guests and fans.
 A total of 3,642 journeys were taken with the taxi system.

Summary, conclusions and recommendations

Throughout TWG2017, over 6,000 transport operations were carried out, and all participants were transported to their destinations on time. There were no delays reported.

It was crucial to develop a Transport Plan for the Games that includes the following points.

- A method of how to manage the operation.
- Identification of decision makers along with their scope of responsibility and rules of communication.
- Identification of target groups (mass transit, dedicated transportation, VIP transportation).
- Rules for marking the vehicles used – so that they were well identifiable by TWG2017 participants.
- Rules of procedure in crisis situations.
- Design of entry cards and parking cards, so as not to raise doubts among the public service personnel at competition venues (distribution method, design) and rules for vehicle access to venues for the phases before and during the Games.
- A graphic presentation of venue access routes for bus and van drivers so as not to raise doubts with regard to the places intended for dropping off and picking up passengers. Identification of car park zones for all target groups at each of the Official Locations.
- Communication plan with the Competition Manager (emergency replacement of vehicles due to the absence of an athlete/team at the place of departure).
- Rules of communication with drivers (information on delays, emergency and crisis situations), and
- Quick and effective cooperation with the Municipal Police (Straż Miejska) and National Police (Policja) to clear sensitive Games locations blocked by improperly parked cars.

Accommodation

General information

According to the Agreement with IWGA and the Rules of The World Games, WOC was obliged to provide accommodation to defined groups of participants of the Games. These groups were the following within TWG2017 accreditation system:

- VIP guests,
- IWGA,
- athletes, and
- ISF officials.

The obligation involved accommodation in hotels or university campuses of an adequate standard.

In addition to the above, WOC was obliged to provide accommodation to representatives of the FICS and Swiss Timing.

Objectives and assumptions

In order to do this, WOC had to provide accommodation for nearly 4,500 participants of the Games. Additionally, WOC provided accommodation for volunteers from outside Wrocław.

During the planning stage, the primary goal was to provide participants with a high level of comfort while maintaining overall cost-effective management. The logistic efficiency of the Games was also taken into account. At the same time, due to operational reasons it was necessary to provide a maximum level of flexibility in this service.

With these goals in mind, six objectives were adopted for the accommodation.

- The location of accommodation sites for all participants was to be as close as possible to the competition venues.
- Accommodation for all players of one discipline was to be in one location.
- Accommodation facilities were to be flexible in terms of provision of accommodation to so-called extra officials in the same location as the rest of the competition participants in a given discipline.
- The possibility to create an effective tournament transportation system [adequate infrastructure enabling the creation of special bus stops for the duration of TWG].
- A guarantee to provide a high level of security at the accommodation sites, and
- To provide a comparable standard of available services in all locations.

The starting point for further decisions and the development of a detailed plan was based on market research and the verification of the number of available beds in hotels and campuses in Wrocław.

In the case of establishments other than hotels, it was assumed that they must meet the three-star hotel standard defined in the Act of 29 August 1997 on Tourist Services [Journal of Laws of 2004, No. 223, item 2268 as amended], and in the Regulation of the Minister of Economy and Labour of 19 August 2004 on Hotel Facilities and Other Facilities in which Hotel Services are Provided [Journal of Laws of 2006, No. 22, item 169].

In order to correctly fulfil the Agreement, the detailed guidelines for the standard of accommodation services for particular groups of TWG2017 participants were defined.

Table 6. Standard of accommodation services by groups of participants.

Group	Characteristics	Service standard
VVIP VIP	<ul style="list-style-type: none"> Representatives of governments. Representatives of international organisations and federations. Selected representatives of the IWGA Executive Committee. guests accommodated in IWGA HQ, including IWGA Executive Committee, IWGA Administration and IWGA guests. 	Accommodation with full board in one hotel of four-star or higher standard with not less than 200 rooms.
VIP	<ul style="list-style-type: none"> Selected VIP guests invited by WOC and the Mayor of Wrocław. 	Accommodation, bed and breakfast.
Athletes Extra Officials	<ul style="list-style-type: none"> Athletes from particular disciplines included in the IF Passport. Team sports coaches included in the IF Passport. Members of sports teams [coaches, assistants, physiotherapists, medical doctors, etc.] having the status of Extra-Officials [after IWGA acceptance]. 	<p>Accommodation in Accommodation Centres or, as needed, in hotels of a three-star or higher standard.</p> <p>Note:</p> <ul style="list-style-type: none"> Gymnastics, dance and billiards sports athletes - accommodation in hotels in Wrocław as suggested by IWGA. Air sports and roller sports athletes' - accommodation in hotels due to the long travel time from the planned accommodation centres to the place of competition.
Competition Managers	<ul style="list-style-type: none"> Competition Managers [CM] and accompanying technical delegates [IT] included in the IF Passport. Referees and technical delegates included in the IF Passport. 	Accommodation in one or at most two hotels of a three-star or higher standard, where full board and necessary office and conference facilities were provided.
FICS WADA SWISS TIMING	<ul style="list-style-type: none"> Technical partners. 	Accommodation in one three-star hotel, where full board was provided.
Media	<ul style="list-style-type: none"> Journalists and media representatives. 	Accommodation [bed and breakfast] - at the expense of the participants.

Event management

The accommodation service was managed by nine WOC employees and 49 volunteers. The structure of the process management together with the responsibilities of key people are shown in Diagram 5.

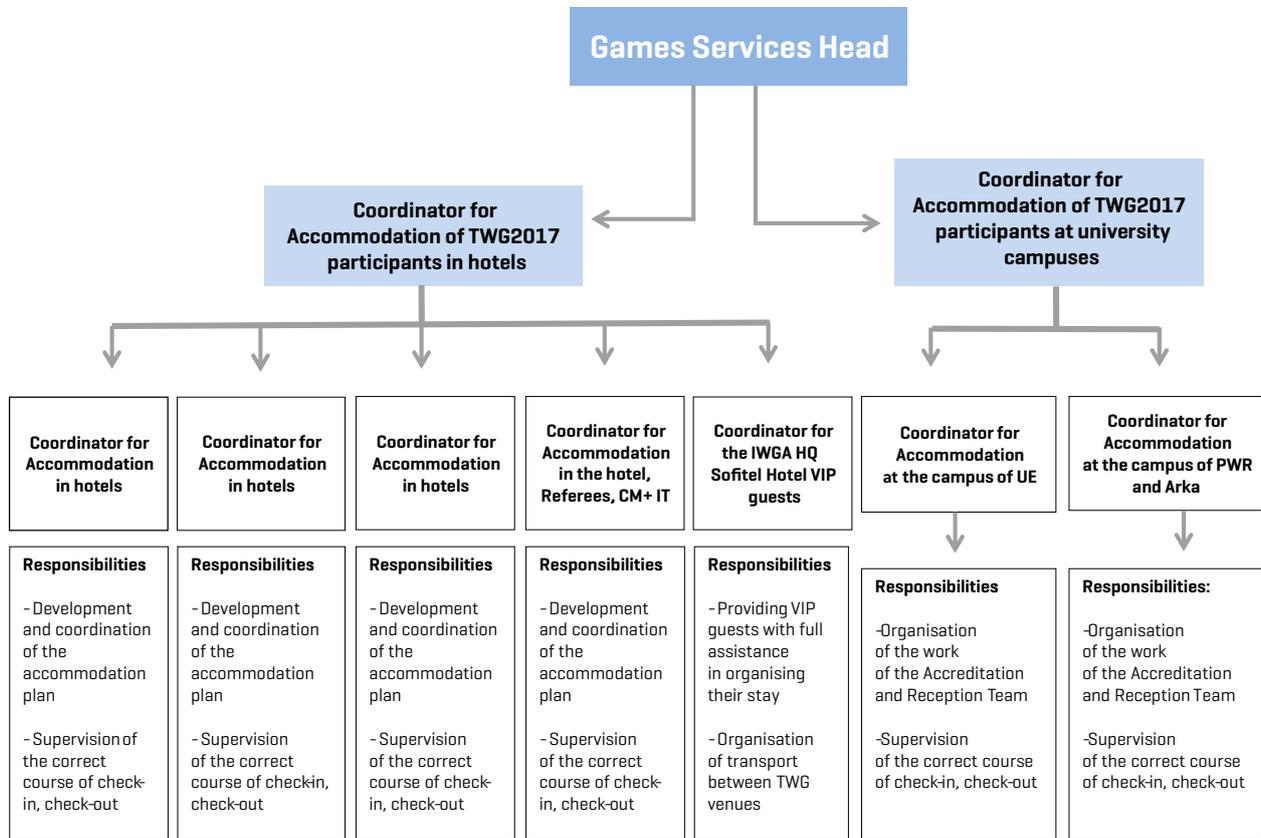

Diagram 5. Management of the accommodation service.

Service provision

After conducting relevant procedures for the award of public contracts, the accommodation services for TWG2017 participants was provided in university dormitories and hotels in Wrocław and in the case of competitions held outside Wrocław, also in Wałbrzych and Świdnica.

Accommodation Centre I:

Campus of the Wrocław University of Technology (PWR), ul. Wittiga and ul. Wróblewskiego.

The Campus of PWR included the following dormitories: T-15, T-16, T-19 and T-22 - located at ul. Wittiga and ul. Wróblewskiego. It was intended for athletes and extra officials, whose venues included the Academy of Physical Education, GEM Hall, Centennial Hall, Pergola, Wrocław Congress Centre, Szczytnicki Park and WKK Hall.

Accommodation Centre II:

Campus of the University of Economics (ECO), ul. Komandorska 118-120.

The Campus ECO included the following dormitories: Ślężak at ul. Ślężna and Przegubowiec at ul. Kamienna. It was intended for athletes and extra officials, whose competition venues were: Hasta La Vista Sports Center, Jelcz-Laskowice Sports Hall, Sky Bowling centre, National Music Forum, NowyTarg Square, Millennium Park, Oławka Stadium and Orbita Hall.

The remaining participants were accommodated in hotels in the city of Wrocław, as well as in Wałbrzych and Świdnica.

Accommodation was provided from 18 July to 1 August 2017. During this period 3,749 participants of the Games were lodged in the campuses. This figure includes 1,882 people in PWR and 1,228 people in ECO, including 106 employees of WOC. In addition, 639 volunteers were accommodated in the university dormitory Arka. A total of 2,664 people were accommodated in 20 hotels.

In total, during the Games accommodation for a total of 6,413 participants whose stay in Wrocław reached 40,165 person-days was provided.

The detailed tables of accommodation according to disciplines are shown in Tables 7 and 8.

Table 7. Accommodation of TWG2017 participants on campuses - implementation.

Campus	Discipline	Number of person-days	Number of person-days
Campus of PWR	American Football	173	873

TOTAL		2,664	16,615

During the provision of accommodation service, the following exceptional events were recorded.

- On 23 July a storm rolled over Wrocław – open windows in participants' rooms caused flooding and resulted in 63 hotel beds on the PWR campus 32 beds in the dormitory Arka and the meeting room at the ECO campus being unusable for one night – WOC provided temporary rooms.
- Lodging problems - as a result of failure by some federations to comply with the arrival dates of participants from different countries and the number of participants as agreed with IWGA, certain participants arrived one or two days earlier and in greater number of participants than notified by the federations - WOC voluntarily provided for this period and for those persons an accommodation in facilities of lower standard than agreed.

Summary, conclusions and recommendations

- Recommended solutions.
- The use of the module Accommodation in the EMS system–ensures efficient management of the accommodation service and ongoing monitoring of the room occupancy.
- Maintaining a reserve of 10% of available beds within the overall pool of available beds–ensures access to accommodation resources in case of emergency.
- Posting a notification on the declared dates of stay in the Accreditation module in the EMS system (functionality of displaying this on the accreditation) and its mandatory nature during the registration of participants will make it possible to avoid a situation of lack of accommodation.
- The introduction of liability for an ISF failure to provide the required number of participants (especially extra officials) within the required time limit and the delivery of registration lists will allow for a precise allocation of resources and avoiding situations of lack of accommodation.

Catering

General information

According to the Agreement with IWGA and the Rules of The World Games, WOC was obliged to provide food for defined groups of participants of the Games included in the TWG 2017 accreditation system as the following categories:

- VIP guests,
- IWGA,
- athletes, and
- IFS officials.

The obligation included providing three meals a day, including one hot meal as a minimum.

In addition, WOC was obliged under the Agreement to provide catering to representatives of the FICS.

Volunteers were also provided with catering services.

Objectives and assumptions

To ensure the well-being of the participants of the Games, WOC fulfilled their obligations with attention to the Polish legislation related to mass catering, namely:

- Act on Food and Catering Safety of 25 August 2006, and
- Act on Infectious Diseases and Infections of 25 August 2008.

In order to meet the expectations of multicultural groups of participants [112 countries from six continents], and the requirements resulting from the findings by IWGA, WOC planned a healthy and tasty menu with a rich selection of dishes and food products.

After some consideration, the idea of one centrally located catering centre was abandoned. With the participants' comfort in mind, a decision was taken to combine the catering services with accommodation sites and the specific requirements of individual groups.

Service provision

In order to provide the catering service, dedicated centres were established near the two main accommodation centres, providing full board catering for all participants, i.e. breakfasts, lunches and dinners.

Accommodation Centre I:

Campus of the Wrocław University of Technology, ul. Wittiga/Wróblewskiego.
Full board in Catering Centre I, location: IASE hall, ul. Wystawowa 1.

Accommodation Centre II:

Campus of the University of Economics, ul. Komandorska 118-120.
Full board in Catering Centre II - location: Building D UE.

For guests staying at hotels, the breakfasts, breakfasts plus dinners or, where appropriate, full board, were provided at the accommodation site. There was also an option to order meals [lunches and dinners] to be delivered to the Sports Venues.

The models of catering services for individual groups of participants are presented in Table 9.

Table 9. Catering services by target groups.

Target group	Type of service
Athletes and Extra Officials	<ul style="list-style-type: none"> • For guests staying at Accommodation Centre 1 or 2: full board such as breakfast, lunch and dinner in the dedicated Catering Centre. • For guests staying in hotels: breakfasts or breakfasts and dinners provided at the accommodation sites, with lunches in the dedicated Catering Centre. • In the event of accommodation outside of Wrocław [due to the location of the competition venues]: full board in the hotels with external catering provided at lunch time. • Where needed, lunches and dinners in the form of "lunch/dinner-boxes" were provided and delivered to Sports Venues.
ISF officials, including referees	<ul style="list-style-type: none"> • Breakfasts and dinners served at the accommodation sites [hotels], with lunches in the catering centres. • An option of takeaway lunches delivered to Sports Venues was available.
IWGA, VIP	<ul style="list-style-type: none"> • Full board, breakfast, lunch and dinner served at the accommodation sites [hotels].
FICS	<ul style="list-style-type: none"> • Breakfasts and dinners served at the accommodation sites [hotels], takeaway lunches served as "lunch-boxes".
Volunteers	<ul style="list-style-type: none"> • Breakfasts, lunches and dinners delivered to the accommodation sites. • Lunches delivered to the Sports Venues.

It was agreed that a reserve space should be designated for the Catering Centre in case of an emergency situation. The place available and compliant with the requirements was the Hall of the University of Life Sciences at ul. Chełmońskiego 43. This hall was booked for the period of 15-31 July 2017.

The organisation and provision of services in Catering Centres was entrusted to professional catering entities, selected with a public tender procedure:

- Catering Centre I, ul. Wystawowa 1 [hall in the IASE building]: The contractor selected in a tender procedure was the consortium of: Dynamic Congress Centre Sp. z o.o. and Welcome Catering Service s.c.
- Catering Centre II, ul. Komandorska 118-120 [Building D UE]: The contractor selected in the tender procedure was the consortium of Nelson Catering & Events Sp. z o.o. and Nelson Józef Nawrot.

The Catering Centres started their operation on 18 July with a dinner and ended on 31 July with a breakfast. All services in both catering centres were carried out as planned. Catering centres were obliged to provide services in accordance with the common menu, strictly defined by the LOC, so exactly the same dishes were served in both locations.

The participants used catering services based on their rights as specified in their accreditation. These rights to use the Catering Centres were verified electronically, using hand-held scanners.

The correctness and timeliness of the services provided at the Catering Centres were checked on a regular basis during each meal. Both the Catering Centres and their back office facilities, i.e. kitchens and storage rooms were subject to quality inspections, held on 18, 22, 26 and 30 July. These inspections looked at meals served, the quality of products used, storage and production. No irregularities were found as a result of the inspections.

All meals were paid for immediately once completed, based on tokens issued and electronic access verification [reading the QR codes on the accreditation] and listing of take-away orders.

In total, 45,821 meals were served during TWG2017, including 12,125 breakfasts, 19,001 lunches and 14,215 dinners. The lowest number of meals served was reported for breakfasts at 55.26%, while the highest for lunches averaged 77.03%.

Summary, conclusions and recommendations

- Correlation of the number of meals served [number of participants] with the number of serving sites [speed of operation] and seats allows the avoidance of queues and any congestion. It provides smoothness and comfort of the services being provided.
- Ensuring flexibility and a wide selection [while preserving the quality of products and services] allowed the organisers to design individual dietary solutions. This is essential for multicultural groups of participants and people on various diets, and
- Providing accurate descriptions of products and dishes, and detailed guidelines, based on applicable laws, will ensure proper and safe use of the services as planned.

Hospitality

Hospitality programme consisted of the following:

- 19th of July - Official lunch hosted by Mayor of Wrocław for IWGA Executive Committee.
- 20th of July - Official lunch hosted by Mayor of Wrocław on the occasion of visit of the President of the International Olympic Committee in Wrocław.
- 20th of July - Welcome Cocktail for officials and invited guests as a part of TWG2017 Opening Ceremony.
- 21th of July - Welcome Reception hosted by Mayor of Wrocław for ISF representatives.
- 30th of July - Farewell Dinner in National Forum of Music for ISF representatives and invited guests attending the Closing Ceremony of TWG2017.

In addition, a dedicated tourist programme had been prepared for officials and IWGA's guests who wished to visit Wrocław's and Lower Silesia's main attractions.

11. VOLUNTEERS

General information

The main objective of the volunteering project was to ensure the efficient running of the Games and all areas where events took place that involved large numbers of people.

TWG Volunteer groups/areas of activity

1. At the Sports Venues:

- Field of Play – direct assistance in organising the competitions and preparing the field of play.
- Timing & Scoring - direct support for Swiss Timing in assigned tasks, agreed with Swiss Timing Coordinator.
- Fan support - providing information on the competitions, diagrams, schedules and support in ushering to the stands.
- Games & Services - support in the organisation of transport, catering and accreditation.
- Media – support for the press officers in terms of assistance for journalists in the media room, media stand, the photo zone and mixed zone.
- Support for the Venue Manager – assigning a personal assistant.
- Support for the Competition Manager – assigning a personal assistant.
- Anti-doping – tasks performed by circulating volunteer groups supporting the anti-doping commission in terms of testing, in accordance with the adopted schedule, and
- Medal ceremonies – tasks carried out by circulating groups, supporting the coordinator of ceremonies according to the adopted schedule.

2. Outside the Sports Venues:

- Team Attaché - assistance to teams/federations from their moment of arrival to their departure from Wrocław.
- Airport - operation of an info-point.
- Hotels - support for hotel coordinators in terms of information for the guests.
- Academic campuses – support for finding accommodation, accreditation and transportation, support in catering centres.
- Media centre – providing current information to journalists, support in assigning accreditation.
- VIP Hotel – supporting the coordinator for VIP guests; in certain cases, the group also supported VIP guests outside the hotel [e.g. during the opening ceremony or some sports competitions], and
- SportCall - support for the SportCall company in performing a survey of the participants [over 3,700 questionnaires].

3. “Joker” – ongoing support for the organiser depending on current needs.

The total demand for all these categories was estimated at 1,600 volunteers.

Information on the minimum demand for volunteers to conduct individual competitions and processes:

Table 10. Volunteers at the sports venues.

Area	Number of volunteers
Team Attache	158
VIP	25
Media	67
Accreditation	42
Accommodation & Catering	102
Joker	102
TOTAL	436

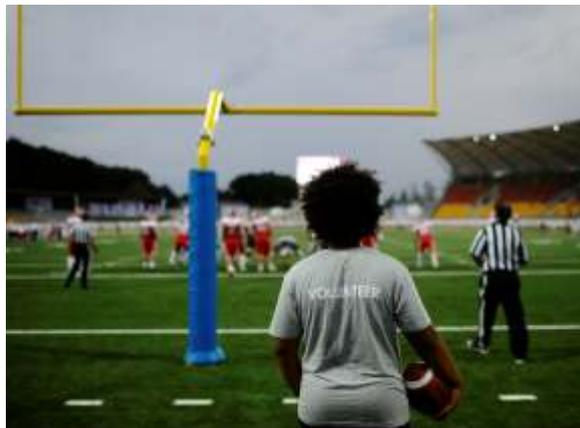

Due to the nature of volunteering at the Field of Play (FOP), including the need for volunteers to have particular skills and excellent knowledge of the given disciplines, the recruitment and organisation of volunteering in these areas were entrusted to FOP Partners who were responsible for serving the WOC.

According to Polish law, WOC was obliged to provide benefits in the form of personal accident insurance for all volunteers. In addition, for organisational reasons, all volunteers had to be granted accreditation entitling them to perform their duties.

Taking into consideration the role of volunteering in providing quality services and thus appropriate reception of the Games by all groups of participants – athletes, sport federations representatives, VIPs, officials, journalists and fans, there was a focus on the process for selecting volunteers and their training and motivation.

As part of the volunteer project, the following compulsory and optional benefits were planned:

- Insurance – personal accident insurance for all WOC volunteers on the days of their duties.
- Agreements - according to Polish law it is not necessary to enter into agreements for short-term volunteering (less than 30 days). In order to ensure a high quality result for this project and so the volunteers could identify fully with their function, a decision was taken to sign agreements with all the volunteers.
- Accreditation – accreditation giving the right to perform duties at a certain time (providing adequate access to venues and relevant benefits).
- Transport - free public transport and transportation arranged especially for the Games, based on the accreditation.
- Accommodation - accommodation for volunteers coming from outside Wrocław.
- Catering - three meals a day for volunteers coming from outside Wrocław and one meal a day for local volunteers, and
- Uniform – Two types of uniform were provided – for WOC volunteers and for FOP volunteers – consisting of T-shirts, jackets, bags and caps. Total: 1600 packages.

Managing the volunteer project

At the preparation stage of the project a volunteer team was implemented composed of:

Position	Responsibilities
Volunteer Manager	Supervision of the project implementation.
Volunteer Specialist	Field of Play volunteers, direct contact with assistants of the Competition Managers and Venue Managers, anti-doping volunteers.
Volunteer Specialist	Volunteers at the sports venues, direct contact with venue leaders, supervision of the recruitment process.
Volunteer Specialist	Volunteers for the media and VIPs, volunteers for the opening and closing ceremonies, supervising the training process.
Volunteer Specialist	Volunteers for medal ceremonies, Team Attachés.
Volunteer Coordinator	Volunteers in the Games Services: accommodation, transport, meals, accreditation.

In the period immediately preceding the Games [June-July 2017] more and more tasks were handed over to leaders of particular areas and venues. The structure of the team of volunteers for the time of the Games is presented in Diagram 6.

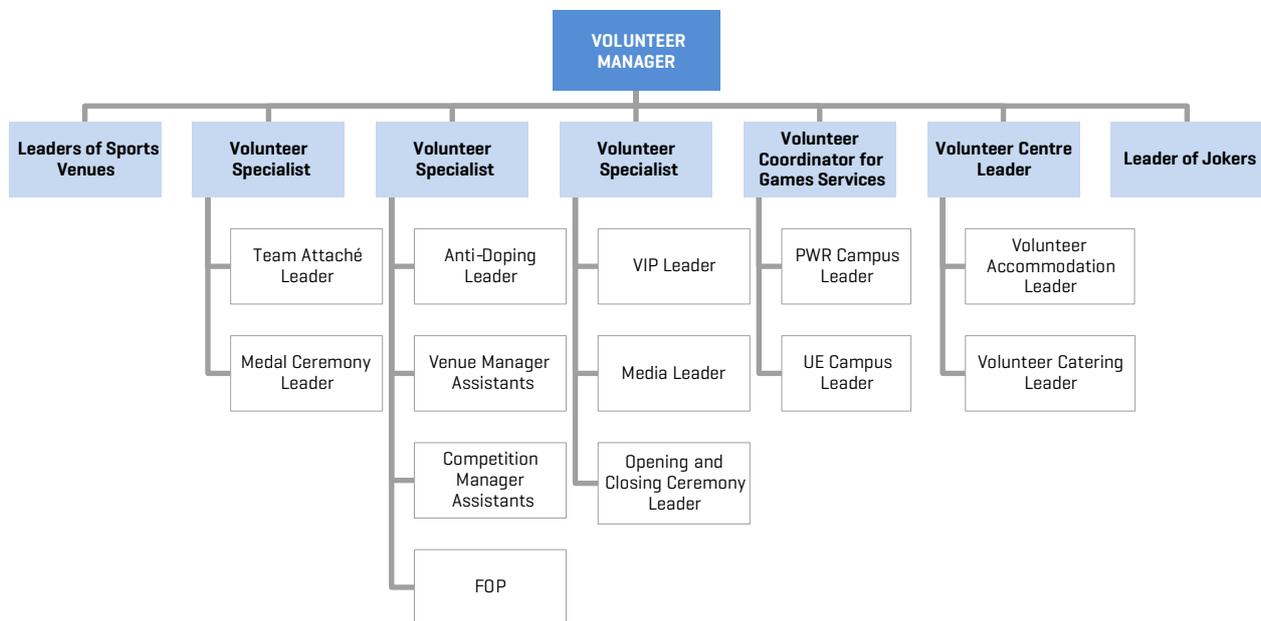

Diagram 6. Structure of the team of TWG2017 volunteers.

Recruitment and training

Table 12. Schedule for the implementation of the volunteering project.

February 2017	Launch of the recruitment application form at www.theworldgames2017.com
8 March 2017	Closing date for volunteer applications
8 March 2017	Recruitment of volunteer leaders
25 March 2017	Launching the training for leaders
30 March – 22 April	Recruitment interviews conducted by volunteer leaders
4 June 2017	Opening of the on-line training system
From July 14, 2017	On-site training

Training of leaders and other key volunteer groups (Venue Manager Assistants and Competition Manager Assistants) covered a number of issues, including:

- organisation of TWG2017 and the volunteer project,
- recruitment,
- safety/security, anti-terrorist protection, first aid, and
- personal data protection.

The training of the remaining volunteers included:

1. Four on-line training sessions, conducted from 4 June 2017:

- idea and organisational assumptions of TWG2017,
- event logistics,
- organisation of the volunteering project, and
- Wrocław – topography, amenities, public transport.

2. On-site training—one day before the commencement of duties, training was provided by volunteer leaders and people responsible for various areas of volunteer work.

Implementation / Volunteering in numbers

The total number of volunteer candidates for WOC and FOP volunteering exceeded 3,000. Out of WOC volunteer applicants, 1,520 people were chosen for recruitment interviews. From this group, 1,452 people qualified for the further stages of the process. Finally, 1,142 people were confirmed as volunteers (including acceptance or their allocated area and required availability).

As part of the TWG2017 volunteer project, a total of 1,618 volunteers were recruited:

- 1,142 people from WOC recruitment process, and
- 476 people from the FOP Partner recruitment process.

The number of volunteers recruited to support the competitions and processes was in accordance with the quantitative requirements specified in Tables 1 and 2.

Project implementation period: 14-31 July 2017

The volunteer working times varied and depended on the area they were allocated to and the period of operation of the venue/service concerned. The sports discipline volunteers started working two days before the start of the competition, for example: team Attaché-the day before the arrival of sports teams, media volunteers-the day before the opening of the Main Media Centre. Daily working time did not exceed eight hours.

Among the volunteers recruited by WOC (1,142 people):

1. 949 people came from Poland, including:

- 283 people from Wrocław, and
- 666 people from outside Wrocław.

2. 193 people came from abroad [from 42 countries].

Summary, conclusions and recommendations

The overall good assessment of the volunteering project results from the emphasis on several key aspects that have contributed to engaging the right people in defined areas.

- Recruitment: dedicating adequate time to interviewing the candidates, evaluating their qualifications, getting to know their preferences, developing standards for interviewing and evaluating. This allowed WOC to select the right people for the job, which, given the complexity of the project and the responsibility of the volunteers for many aspects of the event, seems very important.
- Training: it was crucial to plan the training process involving leaders and coordinators of particular areas where volunteers worked. A well-planned training process allowed WOC to provide the necessary knowledge to help volunteers feel more confident in their work and to be able to perform it more effectively, and
- The role of leaders: the work of leaders started many months before the start of the competition. It was important to involve the leaders in the recruitment and training process, to ensure contact between volunteer leaders and Venue Managers and area coordinators- this allowed for better planning of the volunteer work.

A big success of this way of recruiting and training and one that is worth noting, is that there was a virtually one-hundred-percent turnout of volunteers. Effectiveness was increased by the relatively short time frame in which the entire process was planned; from the time the candidate application was submitted through recruitment interviews, training sessions and ultimately fulfilment of the tasks in the project. In addition, the multi-step approach and resulting ongoing contact with the candidates made it possible to maintain an appropriate level of motivation and interest among would-be volunteers.

12. SPORTS & VENUES

General information

The official sports programme of TWG2017 included 31 sports. The competitions for these were held in 24 sports arenas in Wrocław and the surrounding area. The Sports were divided into seven groups: Precision Sports, Strength Sports, Artistic and Dance Sports, Invitational Sports, Ball Sports, Trend Sports and Martial Arts.

The competitions took place in sports halls, stadiums and multifunctional venues, which mostly already existed in Wrocław. However, all the venues had to be adapted to the needs of international competitions and television coverage. Several investments were carried out specifically for the Games. The major ones included: modernisation of the swimming pool at ul. Wejherowska in Wrocław, which resulted in the construction of a 50-metre indoor swimming pool for water sports, and modernisation of the Olympic Stadium. A state-of-the-art roller skating rink was built in the Park Tysiąclecia [Millennium Park] complex, which is located near a large residential estate in Wrocław. Each of the construction projects and modernisation of the facilities was carried out so as to make them widely available to Wrocław residents. Owing to this, the sports infrastructural base of the city was expanded and modernised on the occasion of organising a great sporting event.

The main criteria for choosing the competition venues included: dimensions of the field of play, capacity of the stands, IT support, power supply parameters and access to car parks and distance from public transportation facilities. A practical solution was to create sports clusters – that is venues located close together and sharing some common infrastructure such as locker rooms, VIP rooms and press rooms. Wrocław's venues were classified, according to their location, as pertaining to the western, central and eastern clusters. The competition was also held in four locations outside Wrocław, not more than 60 kilometres from the host city.

The biggest challenge was to find venues for sports with high or very specific technical requirements, such as air sports or inline hockey, which are not particularly popular in Poland. Another difficulty was related to having to choose venues of a similar standard for all the sports. Therefore, it was necessary to work with the following neighbouring towns Szymanów [airport], Trzebnica [municipal parks and woods], Świdnica [ice rink], Jelcz - Laskowice [sports hall].

NON-COMPETITION VENUES

- WOC - WROCLAW ORGANIZATION COMMITTEE
- MMC - MAIN MEDIA CENTRE
- WGP - THE WORLD GAMES PLAZA
- IBC - INTERNATIONAL BROADCAST CENTRE
- OCV - OPENING CEREMONY VENUE
- CCV - CLOSING CEREMONY VENUE

Each venue needed to be adapted to the requirements of the ISF concerning the competition, especially in the case of sports which do not have dedicated arenas in Wrocław. The preparatory work covered the following activities: signing of agreements with defined rental and co-operation terms, development of detailed floor plans (overlays), definition of needs for the modernisation and adaptation of venues to the needs of the competitions and identification and provision of temporary infrastructure and IT equipment and services.

Both during the preparation period and during TWG2017 themselves, overlays were the basis for all arrangements between the parties involved. They were developed to provide a proper layout of the field of play, necessary functional rooms, storage facilities, catering areas and access zones, as well as all supplies and services addressed to each of the groups of participants in the Games [including sports presentation, video camera positions, IT, Swiss Timing, medical support]. The final, standardised overlays were developed in April 2017, and were broken down into access zones that corresponded to accreditation zoning. These plans also formed the basis for 3D models to visualize and validate the assumptions. This was particularly important for venues with a large amount of temporary infrastructure, because of the need to find optimal camera positions and visibility from the spectators stands.

The adaptation of the venues holding the competitions primarily involved the provision of temporary infrastructure within the following areas:

- tents and containers – intended for office rooms, storage rooms, ticket offices, locker rooms, showers, security rooms, warm-up halls and conference rooms,
- bathroom facilities – portable toilets and portable sinks with a maintenance service,
- fences, cable protectors,
- temporary power supply – power generators and cables,
- temporary spectators stands – internal and external,
- temporary air conditioning and ventilation systems,
- platform and scaffolding systems – for the preparation of fields of play, installation of timing equipment, score boards [Swiss Timing] and platforms, towers, scaffolds for sport presentation and TV signal production,
- sport presentation – multimedia coverage of the event, consisting of:
 - sound systems with DJ and conference support in Polish and English,
 - event lighting systems,
 - large LED screens with video production: camera production [content sent to the screen], image for the results display system, advertising content, medal ceremonies [displaying animated flags of countries of medal winners instead of traditional fabric flags], and
 - LED perimeter advertising systems.
- IT services and equipment – divided into two areas of responsibility:
 - network service – covering main and backup Internet connections, design and installation of temporary network systems [both passive and active infrastructure], network administration, and
 - hardware supply service – including the supply of laptops, printers/scanners, multimedia projectors, LCD screens.
- timing & scoring – according to TWG 2017 agreement, WOC was required to use the services of Swiss Timing – the official partner of IWGA. The following services were included in the scope of the agreement:
 - results and time measuring – clocks, sensors and other specialised devices for measuring data that are specific to each sport,
 - on-venue results – processing the results for further needs – printed matter, television graphics, web graphics, result databases, large LED screens,
 - TV graphics – graphics with results, statistics, names of competitors, etc. overlaid on the signal produced by the host broadcaster,
 - CIS – the system to quickly inform sports commentators,
 - providing scoreboards for the audience or a signal with the results to the provider of the LED screen, and
 - accreditation, accommodation, catering service systems – described in a separate section.
- services related to the day-to-day maintenance of the facility – operation of electrical, plumbing, ventilation, air-conditioning, and IT systems, repair and maintenance of the facility,

- cleaning service - cleaning on an ongoing basis and additional waste containers along with their disposal by city cleaning companies,
- mobile technical maintenance service - three 2-person teams equipped with appropriate equipment and tool sets to support TWG2017 in terms of technical assistance, including such responsibilities as:
 - electrical services,
 - water and sewerage services,
 - carpentry and locksmith services,
 - audio-video services [including connecting audio and video equipment], and
 - small construction works [e.g. equipment assembly and dismantling].
- Sports equipment and field of play structures - mostly provided by Sports Partners [FOP Partners], in accordance with the specification for that sport prepared by international sports federations [ISF].

The correct organisation of the competition was the responsibility of the international sports federation [ISF] competent for the sport concerned. Cooperation with the federations was established directly upon announcement of the official sports programme. In order to communicate effectively with WOC, each federation appointed a representative, i.e. Competition Manager [CM], who was responsible for the drawing up of a document containing information on specific issues related to the organisation of the competition [the Sport Specification], and then for enforcing the implementation of guidelines contained therein. These documents formed the basis for WOC's competitions coordinators, adapting each of the sports venues to host the Games. Also, at the preparation stage, WOC appointed Local Experts for each of the sports, who with their knowledge and experience supported and advised substantively the organisers on an on-going basis in their organisational activities.

WOC was responsible for supplying sports venues so each ISF could conduct competitions in their respective discipline in accordance with the applicable requirements.

To support the comprehensive field of play [FOP] preparation, FOP Partners were selected - Polish sports associations, local sports clubs, organisations and institutions who, working with WOC, had the task of providing necessary sports equipment and appropriately qualified personnel to support the FOP. About six months before the Games, WOC appointed Venue Managers who, based on information previously supplied by the competitions coordinators, took over the management of the organisation processes, and during the Games, together with the Competition Manager, managed all activities at the Venue according to the Master Venue organisational structure.

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- Polish Petanque Federation

COMMENTS & RECOMMENDATIONS

- Competition was held in three disciplines: Lyonnaise, Raffa and Petanque.
- Cooperation with the World Federation at the stage of preparation ran well, however, there was a lack of coordination meetings and understanding of distribution of responsibilities.
- During the Games cooperation with the Competition Manager was challenging, there was misunderstanding concerning the organisation of the competition, especially of Raffa.
- As a result of the thunderstorm occurred during the competition the pitch was flooded, and the ISF decided to cancel Raffa event.
- IF decided unexpectedly to give 2 bronze medals to Petanque medallists [opposite to the IWGA regulations], as a result, the medal awarding ceremony was postponed.

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- Polish Bodybuilding & Fitness & Powerlifting Federation

Venue arrangement

- Assembly in the training zone, warm-up area and on the main stage of NFM [the competition took place in the main concert hall of the National Forum of Music].

COMMENTS & RECOMMENDATIONS

- The competition was organised according to the Sport Specification in good cooperation with the International Federation.
- After the competition it turned out there was a lot of magnesium left on the floor of the stage. In the future if competitions are held on parquet, it is worth securing to protect the whole parquet.

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- Polish Tug od War Federation
- University School of Physical Education in Wrocław

Venue arrangement

- Temporary venue prepared especially for the event [men's competition].
- Preparation of the pitch [marking of the field for the competition].
- Preparation of the hall [construction of the tracks].
- Mounting of the tribunes, fencing and other temporary infrastructure.
- Considering the fact that there were several TWG competitions at AWF complex [University School of Physical Education in Wrocław], it was necessary to have special traffic arrangement during the Games.

COMMENTS & RECOMMENDATIONS

- The competition was organised according to the Sport Specification in good cooperation with the International Federation.
- The biggest challenge was to bring all the equipment from the hall to outdoor venue in a very short time after the final of women competition [women were competing indoor and men - outdoor].
- The majority of the athletes didn't use the changing rooms due to their location. VIP room was also rarely used because it was in a several-hundred-metres distance from the FOP. In case of such short competitions [3h] it is important to have the FOP as close to the changing area as possible as well as to the rooms for guests. Otherwise, these rooms won't be used.

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- Dance Sport Federation Poland

Venue arrangement

- Placing of the main and warm-up parquet.
- Assembly: the curtain, sound system, additional lightning and illumination for dance sport.

COMMENTS & RECOMMENDATIONS

- The competition was held in standard, Latin, salsa and acrobatic Rock'n'Roll.
- Thanks to good cooperation with the International Federation, despite a tight schedule, the organisers managed to assemble the parquet on time and the competition was held according to the schedule.
- Due to the specificity of Rock'n'Roll and the needs of the Host Broadcaster WDSF agreed to have reverse than usual orientation of the dancers towards the audience.
- By experience, it can be concluded that in dance sport the function of CM should not be combined with the function of the main sport partner. With such a big number of tasks, this combination complicated the organisation of the competition.
- Dance sport participants have higher than average requirements of accommodation, catering, transportation, changing rooms and judges' rooms.
- Competition office was printing more than 1600 pages daily, which should be taken into consideration at the stage of planning.
- Rock'n'Roll is not affiliated with WDSF, which resulted in some difficulties in the delivery of the event.

- 25-26.07.2017 Competition

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

COMMENTS & RECOMMENDATIONS

- The competition was organised according to the Sport Specification in good cooperation with the International Federation.
- It is worth considering high expectations and small flexibility of the federation regarding sport and non-sport dimensions.
- Besides the official training days, the athletes were training also on the competition days. Very often, the training was over with the opening of the gates for spectators. It resulted in the necessity to have all the staff at the venue on a daily basis since early morning till midnight [the venue had to function 16-17h a day].
- The competition was over each day with at least 30-min delay regarding the competition programme due to the referees work.
- The athletes barely used the changing rooms.
- All the facilities [light, sound, branding, etc.] should be the same as during the competition [this resulted in the prolongation of working hours for the technical staff].
- It turned out that the organisers had to ensure rooms which were not planned before, such as a room for the Secretary and FIG President and other requirements which were not reported during the preparation.
- Conference rooms were used by the federation to a bigger extent than planned, which affected the schedule, once these rooms were designated as well to other sport federations which had their competitions on the territory of Centennial Hall.

KICKBOXING

Participants

- Athletes [96]
- Officials [76]

Project team

- WOC [8 persons]
- Partners [9 persons]
- Volunteers [34-50 persons]
- Safety & Security [35 persons]
- Medical services [15 persons]

TV production

- LIVE 26-27.07.2017 [10 cameras]
- Additional live streaming [ring 2] covered by WAKO

Venue arrangement

- Assembly of the rings.
- Preparation of the warm-up area on the surface of the inactive ice rink.

Competition schedule

- 25.07.2017 Official training
- 26-27.07.2017 Competition

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- Polish Kickboxing Federation

COMMENTS & RECOMMENDATIONS

- It was agreed that the same rings would be used during kickboxing and muay thai.
- Given that there were many judges and officials, the organisers had to plan the zones of the venue wisely and prepare proper routing around the venue for different target groups.
- At the preparation stage cooperation with WAKO ran smoothly, however, there were some communication problems on the spot. E.g., WOC was not informed on time about the changes in the competition programme, which accelerated the time for the medal awarding ceremonies by about 2 h.
- The competition in kickboxing started 2 days after the competition in sumo at the same venue, and straight after kickboxing there was muay thai. Fast rearrangement of the hall for 2 disciplines at the same time was a challenge for the organisers. Despite time pressure, the competition took place according to the schedule.
- The organisation of competition was supported by the Polish Kickboxing Association.
- On WAKO request, the organisers managed to provide additional equipment to have live streaming of the draw straight before the competition.

FOP Partner

- WTS Sparta Wrocław

Venue arrangement

- Olympic Stadium is adjusted to the requirements of speedway.
- Considering the fact that there were several TWG competitions at AWF complex [University School of Physical Education in Wrocław], which is located to the Olympic Stadium it was necessary to have special traffic arrangement during the Games.

COMMENTS & RECOMMENDATIONS

- The competition was organised according to the Sport Specification and agreements with the international federation. No specific problems occurred.

TV production

- LIVE - 26-29.07.2017 [8 cameras]
- ENG - 26-28.07.2017

Venue arrangement

- Temporary venue prepared especially for the event.
- 550 tons of sand, construction of 2 pitches [preparation of the subsoil, assembly of the goal, markings and protective net].
- Preparation of the warm-up pitch.
- Mounting of tribunes, fencing, tents, LED screen stands and other temporary infrastructure.
- Considering the fact that there were several TWG competitions at AWF complex [Wrocław Academy of Physical Education], it was necessary to have special traffic arrangement during the Games.

Competition schedule

- 25.07.2017 Official training
- 26-29.07.2017 Competition

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partners

- The Polish Handball Federation,
- University School of Physical Education in Wrocław

COMMENTS & RECOMMENDATIONS

- The arrangement of beach handball arena from scratch was one of the biggest logistic challenges of TWG from the defining of the pitch boundaries, delivery of several hundred tons of sand to the mounting of temporary infrastructure.
- Cooperation with IHF was challenging, especially at the stage of preparation and assembly. However, due to joint efforts, the generated solutions resulted in smooth running of the competition.

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- School Sports Association

Venue arrangement

- Mounting of the fistball net, marking of the field.
- Assembly of tribunes, tents and other temporary infrastructure.

COMMENTS & RECOMMENDATIONS

- The competition was organised according to the Sport Specification in good cooperation with the International Federation.
- After the thunderstorm, which incurred serious damage of the venue the training pitch had to be used as a competition one in order to recover the main pitch to be used for the semi-finals and final the next days. The unplanned change of the field resulted in 90min delay of the competition.

- LIVE - 30.07.2017 [8 cameras]
- Additional live streaming & live coverage provided by IFF 27-29.07.2017

Venue arrangement

- Assembly of a special floor, bands and goals [the competition took place in the hall for basketball]. Polish Association of Floorball was a sport partner and was responsible for the renting and assembly of the floor; the bands, goals and balls were delivered by the IF. The assembly of the sport equipment together with branding took around 10h as planned.
- Mounting of temporary air conditioning.
- Assembly of additional tribunes.

Competition schedule

- 26.07.2017 Official training
- 27-30.07.2017 Competition

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- Polish Floorball Federation

COMMENTS & RECOMMENDATIONS

- The competition was organised according to the Sport Specification in very good cooperation with the International Federation.
- Floorball competition started a day after korfbal competition at the same venue. A challenge was to rearrange the hall in just one night including reassembly of the floor, sport equipment, flags, branding and the change of functionality of some rooms. Assembly works lasted all night long and partially during the morning training. Despite a risk of delay, the competition ran according to the schedule.
- As far as the location of the tribunes behind the goals is concerned, it is recommended to provide relevant nets. Considering the position of the cameras behind the goals, IFF recommends a white net.
- Considering modest dimensions of the hall, IFF agreed to decrease the security zone around the pitch.
- Additionally, IFF hired a TV crew at their expense, which did the streaming during the first 3 days of the competition, what improved the quality of the images displayed on the spectator LED screen and increased the range of the broadcasting.
- "Fan zone" was very popular within the spectators. It was next to the catering zone and had mini-pitches for Floorball where the volunteers were entertaining the audience during the breaks.

FOP Partner

- AZS Balluff Wrocław Korfball Team

COMMENTS & RECOMMENDATIONS

- The competition was organised according to the Sport Specification in good cooperation with the International Federation.
- IKF provided streaming, which increased the range of broadcasting and improved the quality of the images displayed on the spectators LED screen.
- Considering modest dimensions of the hall, IKF agreed to decrease the security zone around the pitch.
- A challenge for the organisers was the adjustment of proper fencing around the field of play – a solution was lightweight plastic banners and the belt posts.
- Given that the teams were mixed, it was necessary to provide separate changing rooms for men and women [2 per each team].
- “Fan zone” was very popular within the spectators. It was next to the catering zone and in front of the hall, had several baskets where the volunteers were entertaining the audience during the breaks.

- Medical services [6 persons]

• TV production

- LIVE - 29-30.07.2017 [10 cameras]
- ENG - 27-28.07.2017

Venue arrangement

- Painting over the markings of the fistball field.
- Marking of the pitch and mounting of the protective nets for lacrosse.
- Assembly of the tribunes and other temporary infrastructure.

Competition schedule

- 26.07.2017 Official training
- 27-30.07.2017 Competition

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- Wrocław Scythe-Bearers

COMMENTS & RECOMMENDATIONS

- The competition in lacrosse took place after fistball, at the same stadium.
- Considering different dimensions of the pitches, the order of the competitions should be reverse: first lacrosse, then fistball. Lacrosse pitch is bigger and the organisers had to paint over the marking for fistball. Moreover, fistball players damaged the field more than those of lacrosse.
- The competition was organised according to the Sport Specification and the International Federation requirements. No specific problems occurred.

LACROSSE

- Medical services [9 persons]

• TV production

- ENG - 25-26.07.2017
- LIVE - 26-28.07.2017 [8 cameras]

Venue arrangement

- The competition took place in the professional sport complex, adjusted for squash.
- The organisation of the competition presupposed the assembly of an additional glass court and temporary tribunes.

Competition schedule

- 24.07.2017 Official training
- 25-28.07.2017 Competition

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- HASTA LA VISTA Squash Centre
- Polish Squash Federation

COMMENTS & RECOMMENDATIONS

- The competition was organised according to the Sport Specification in good cooperation with the International Federation.
- Additional power had to be delivered for the competition and live broadcasting [more power generators and wires were brought].
- The experience of the permanent venue staff was very valuable during the organisation of this competition.

- 24.07.2017 Reserve day

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- Wrocław Aeroclub

Venue arrangement

- Preparation of the pond in the framework of parachuting competitions.
- Marking of the airport ground with special markers / pylons.
- Assembly of temporary infrastructure in the public and sport areas – containers, tents.
- Installation of IT infrastructure.
- Assembly of fencing around the territory and adjustment of the current one.
- Mounting of a tribune with 1000 seats.

COMMENTS & RECOMMENDATIONS

- Straight before the competition there appeared requirements from FAI, which had never been announced during the preparation. All important issues, however, were solved timely during daily morning briefings conducted by CM.
- According to the requirements of the international federation, tents for changing were prepared for the competitors, who didn't use them and changed in the equipment rooms. In future, it would be worth considering the necessity to build additional changing rooms.
- Lounges for the spectators - the chill-out area appeared to be the most comfortable way to watch the competition; hence, there should be more lounges and they can be an alternative for regular tribunes.

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- Polish Ultimate Players Association

Venue arrangement

- Marking of the field.
- Construction of the tribunes, fencing, tents and other temporary infrastructure.
- Considering the fact that there were several TWG competitions at AWF complex [Wrocław Academy of Physical Education], it was necessary to have special traffic arrangement during the Games.

COMMENTS & RECOMMENDATIONS

- The competition was organised according to the Sport Specification and in good cooperation with the International Federation.
- Thunderstorm, which came down during the competition, caused serious damage [broken fence and tents, flooded pitch, etc.]. Thanks to great staff's engagement, the venue was recovered within a couple of hours to such an extent that the competition could be continued the same day.

Venue arrangement

- Dismantling of the first line of the starting blocks.
- Mounting of the obstacles for the selected events.
- Mounting of the swimming pool flags.
- Distribution of the manikins for the selected events.
- Designation of the area for judges.

Competition schedule

- 19-20.07.2017 Official training
- 21-22.07.2017 Competition

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- Lovers Silesian Water Volunteer Rescue Service

COMMENTS & RECOMMENDATIONS

- The competition took place in a new swimming pool, completely adjusted to host such competitions.
- The competition was organised according to the Sport Specification in good cooperation with the International Federation.
- There was high attendance of spectators; however, taken into consideration modest capacity of the venue, there were situations as following: spectators obstructed the camera on the tribune; many people were standing next to the fence, blocking emergency exits.

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- Lower Silesia Orienteering Association

Venue arrangement

- Each race was held at a different venue, which entailed installation of facilities each time.
- It was challenging to setup infrastructure for broadcast with trailing cables to camera, OB vans and so on. The change of venues every day required very good planning concerning Broadcasting.
- To organize the Sprint event in the City Centre we had to stop traffic in the area for the time of the Competition.

COMMENTS & RECOMMENDATIONS

- Competition was held in three disciplines: Sprint, Middle, Sprint Relay.
- Cooperation with the International Federation and Competition Manager ran without any problems.
- The event was held according to IF competition rules. There were no protests, etc.
- Altogether, Orienteering competition was rated very high for its technical level.

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- Polish Roller Sports Association

Venue arrangement

- Filling concrete floor and painting it.
- Assembly of the seats for the judges and arrangement of technical rooms.
- Assembly of the tribunes and other temporary infrastructure.

COMMENTS & RECOMMENDATIONS

- The competition was organised according to the Sport Specification in good cooperation with the International Federation.
- Preparing changing rooms for the athletes, it is worth dividing them according to the countries and not gender. Athletes are accustomed to such an arrangement of the rooms and the rooms are less crowded.
- It is important to organise cleaning of the surface during the competition after a discipline is finished. The athletes have uniform with spangles, which fall on the floor and can be dangerous for the next participants.
- It is very important to have smooth surface, which can be easily damaged by the skates, therefore, it is important to check the surface frequently. The surface also has to be flexible.
- Sound is very important. Each performance is accompanied by music. The soundman should be located next to the FOP to see if there are any changes in the programme and contact the CM to confirm the music material for each athlete.

FOP Partner

- Polish Roller Sports Association

COMMENTS & RECOMMENDATIONS

- The competition was organised according to the Sport Specification in good cooperation with the International Federation.
- It is important to secure electronic devices in the FOP from the puck.
- It is important to have spare glass and relevant technical staff to install it around the bands.
- It is important to organise cleaning of the surface with a degreasing agent at the end of a competition day. Also, the glass around the rink should be regularly cleaned as some cameras are located behind it.
- Sufficient amount of ice should be prepared.

Competition schedule

- 20.07.2017 Official training
- 21-23.07.2017 Speed Skating Track Competition
- 24-25.07.2017 Speed Skating Road Competition

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- Polish Roller Sport Federation

Venue arrangement

- A brand new venue, adjusted to the requirements of roller sports.
- Mounting of temporary infrastructure and temporary passage for the public under the road track, marking of the road track, mounting of safety nets, fencing along the track.

COMMENTS & RECOMMENDATIONS

- Contact with IF was challenging. Most of the decisions about venue preparation was made together with the partner - Polish Association of Roller Sports [PARS]. FIRS provided 8 judges and ran the competition in cooperation with PARS.
- The thunderstorm occurred during the competition cause serious damage [broken fencing and tents, tuned-over screen, flooded track, etc.]. Thanks to join efforts of the staff, the venue was recovered to continue the competition.

SPORT CLIMBING

GENERAL INFORMATION

VENUE ADDRESS Nowy Targ Square 29, Wrocław

ISF - International Federation of Sport Climbing (IFSC)

COMPETITION MANAGER Jérôme MEYER (FRA) – IFSC

VENUE MANAGER Przemysław Bagiński (POL) – WOC

VENUE CAPACITY max 1040 seats, incl.:

- Public seats: 797
- Athletes: 200
- IF: 50
- VIP: 60
- Media: 50
- Partners: 100

TOURNAMENT TRANSPORT dedicated transport from the place of accommodation to the venue:

- Athletes [dedicated buses] – 6 km
- Officials [buses, taxi] – 3 km
- VIP [taxi] – 1 km
- Media [shuttle bus from the media centre] – 1 km
- WOC/Volunteers [taxi/public transport] – 6 km

SPORT CLIMBING

Participants

- Athletes [72]
- Officials [18]

Project team

- WOC [6 persons]
- Partners [45 persons]
- Volunteers [50 persons]
- Safety & Security [27 persons]
- Medical services [18 persons]

TV production

Competition schedule

- 20.07.2017 Official training
- 21-23.07.2017 Competition

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- Polish Mountaineering Association

Venue arrangement

- Temporary venue prepared especially for the event. The competition took place on one of the main squares in the downtown of Wrocław amid historic buildings.
- During the preparation it was necessary to receive a permit from a number of institutions including the Conservator of Monuments of Wrocław.
- Dismantling of the city infrastructure within Nowy Targ Square.
- Assembly of 3 climbing walls.
- Fencing of the venue, administrative and social zones were solved with containers [18 containers], mounting of the tribunes, tents and other temporary infrastructure.

COMMENTS & RECOMMENDATIONS

- The competition was organised according to the Sport Specification in good cooperation with the International Federation.
- The only problem putting the competition at risk was sudden thunderstorm on 23 July 2017, which seriously damaged the facilities. Thanks to immense efforts of the staff and volunteers, the venue was prepared for the timely completion of the competition.
- The venue was full of spectators each day. 100% of tickets was sold. Thanks to the location in the city centre, many spectators stood behind the fencing.

- Partners [4 persons]
- Volunteers [44 persons]
- Safety & Security [27 persons]
- Medical services [8 persons]

TV production

- LIVE - 21-22.07.2017 [10 cameras]

Venue arrangement

- Dismantling of the first line of starting blocks.
- Dismantling of the swimming pool flags.
- Designation of the area for judges.

Competition schedule

- 19-20.07.2017 Official training
- 21-22.07.2017 Competition

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- Polish Diving Association

COMMENTS & RECOMMENDATIONS

- The competition took place in a new swimming pool, completely equipped to host such events.
- The competition was organised according to the Sport Specification in good cooperation with the International Federation.
- There was high attendance of spectators; however, taken into consideration modest capacity of the venue, there were situations as following: spectators obstructed the camera on the tribune; many people were standing next to the fence, blocking emergency exits.

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- Polish Motorboat and Water Ski Association

Venue arrangement

- Temporary venue prepared especially for the event [one of the Odra river channels], which required a complex preparation of the FOP, storage area, changing area and a public zone.
- Installation of the slalom track on the water and marking the area of the competition.
- Delivery of the referees and competition boats.
- Installation of mooring berths.
- Assembly of the tribunes, power generators and other temporary infrastructure.

COMMENTS & RECOMMENDATIONS

- The competition was organised according to the Sport Specification in good cooperation with the International Federation.
- The entry to the competition for spectators was free of charge. Spectators could gather on both sides of the Odra River channel.

Partners & Suppliers

Over 10 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- Wrocław Asian Sports Club "Budokan"

COMMENTS & RECOMMENDATIONS

- The competition was organised according to the Sport Specification in good cooperation with the International Federation.
- The fact that the organisers were the same team as during the Polish Championship in Karate WKF was a big advantage during TWG. Budokan Club was one of the main partners of WOC which was responsible for FOP during TWG2017.
- On request of the anti-doping committee, the organisers had to produce additional signage to bring athletes to doping control room.
- The organisers had to make special routing and entrance for VIPs to avoid their clashing with other groups.

MUAYTHAI

Participants

- Athletes [88]
- Officials [25]

Project team

- WOC [8 persons]
- Partners [12 persons]
- Volunteers [38-50 persons]
- Safety & Security [35 persons]
- Medical services [15 persons]

TV production

- ENG - 29.07.2017
- LIVE - 30.07.2017 [8 cameras]

Venue arrangement

- The competition took place in the same hall as sumo and kickboxing.
- The necessity of fast rearrangement of the venue after sumo for both kickboxing and muay thai required wise planning of the dohyo disassembly and fast cleaning of the parquet before the assembly of the rings.
- Preparation of the warm-up area on the surface of the inactive ice rink.

Competition schedule

- 28-30.07.2017 Competition

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- Polish Muaythai Federation

COMMENTS & RECOMMENDATIONS

- Once the same rings were used for both kickboxing and muay thai, it was obligatory to get the confirmation from the ring producer that there were certificates from both of the federations.
- There were musicians playing traditional Thai music during the bouts and they needed special stage platforms and sound systems.
- It is necessary to specify additional equipment required by the world federation, e.g., tables for the athletes, monitors, etc. [during the competition IFMA decided to have additional monitors, which were not planned as obligatory equipment].
- Considering a big number of judges and officials it is advised to pay attention to proper zoning and routing around the venue for different target groups.

- 22-23.07.2017 Competition

Partners & Suppliers

Over 20 entities carrying out services, including sound systems, lighting, tournament signage, medical services, security, IT infrastructure, catering etc.

FOP Partner

- Athletic Association "Rozum" in Krotoszyn

Venue arrangement

- Construction of a traditional clay dohyo – it was necessary to secure the parquet accordingly as well as the construction of dohyo itself, to deliver and place in the construction 16 tons of clay.
- Mounting of trusses for the light and sound systems, preparation of a separate independent truss for the illumination of the dohyo and canopy – it was necessary to disassemble everything quickly after sumo to prepare the hall for the next sports [kickboxing and muay thai].
- Preparation of the warm-up area on the surface of inactive ice-rink.

COMMENTS & RECOMMENDATIONS

- The competition was organised according to the Sport Specification and in good cooperation with the International Federation.
- Besides the organisation of the event, ISF helped WOC with additional personnel responsible for the preparation of the dohyo [Dohyo Technical Officials].
- The preparation of the dohyo must start far in advance [the laying of the clay took nearly 3 days].
- It was a must to have interpreters to ease communication with ISF [ISF hired interpreters additionally which by far simplified the cooperation].
- Given that there were many judges and officials, the organisers had to plan the zones of the venue wisely and prepare proper routing around the venue for different target groups.

Summary, conclusions and recommendations

The World Games 2017 were one of the largest sporting events in Polish history, and the most difficult logistical project in the history of Polish sport. If one should summarise the whole event in numbers, the following figures can be mentioned: a total of 240,000 participants attended events at 26 venues and in the fan zone, ten days of sports competition, with 3,500 athletes from 112 countries, the Polish national team won 30 medals, 1,600 volunteers helped the event run smoothly, 700 journalists from 50 countries provided coverage. Also, 12 kilometres of provisional fence was installed, over 1400 medals were awarded, 120 mobile containers were used. A total of 12 kilometres of cables, 590 extension cords and power strips, 17 power generators powered the Games; 55,000 litres of fuel kept vehicles moving; 32 temporary spectator stands with a total capacity of 13,920 seats were installed. Eighteen kilometres of network cables, 6 kilometres of fibre optic cables, 1 radio link, 106 laptops, 68 network printer-scanners ensured good communications. The medical staff of 480 and a total of 40 emergency rescue service vehicles a day kept people safe and healthy, 389 anti-doping samples were taken during 69 control missions. Perimeter LEDs with the length amounting to 350 metres of and 23 large screens kept everyone informed.

International sport federations, athletes, journalists and guests felt that Wrocław organised the Games very well. The sports venues were of a high standard, the competitions were carried out very smoothly, spectator stands were full of fans, and the TV broadcast surpassed the previous editions of this event in terms of reach and quality. Even a massive storm that partially destroyed external spectator stands in Wrocław on 23 July could not prevent the continuation of the event. The stands were reconstructed on the same day without interrupting the Games.

Due to the multi-sport nature of the event, the key factor for success was the cooperation between WOC and ISF who were responsible for supervising the correct course of the competitions. They also worked well with Polish sport associations, clubs and institutions responsible for the preparation and handling of the field of play. A very important role was played by Competition Managers from the ISF and Local Experts consulted on an ongoing basis by WOC in terms of organisational and technical matters. Thanks to the enormous commitment of each party, a number of working meetings, consultation, visits and jointly organised test events, it was possible to hold competitions at the highest sport level.

To summarise the sport achievements:

The winner of the medal classification was Russia: 63 [28-21-14]; then Germany: 42 [18-10-14] and Italy: 42 [16-13-13]. A total of 17 world records were beaten during the Games in the following sports: finswimming, lifesaving, boules, powerlifting, indoor rowing and sport climbing.

13. LEGACY

"Games must be at the service of the City. The City must NOT be at the service of the Games.... Because Games are temporary and the City is permanent!"

Jose Miquel Abad, CEO Local Organising Committee Olympic Games – Barcelona 1992

General information

Wrocław, as an innovative city promoting sustainable development, decided to organise TWG2017 both for the promotional reasons such as increasing the recognisability of the city in Poland and abroad, and for the values carried by the event to residents of the Host City.

The organisation of the Games contributed to achieving the following aims:

- recognising Wrocław as the sportiest city in Poland,
- encouraging people in Wrocław to choose sport as a form of self-development and a leisure activity,
- increasing the participation of children and young people in sports activities,
- providing support to local institutions and businesses operating in the sports sector, and
- Building an image of Wrocław as an open and friendly city; a city that is worth living in, worth visiting and is business-friendly.

The Legacy TWG2017 programme in Wrocław includes:

- development of the sports infrastructure,
- sport and educational programmes,
- supporting the development of TWG2017 sport disciplines, and
- promotion of Wrocław, the Lower Silesian Voivodeship and Poland as the Hosts of the Games.

Development of the sports infrastructure

The following investments were completed while preparing for the Games:

- major renovation of the Olympic Stadium located at ul. Paderewskiego,
- renovation of the swimming pool complex located at ul. Wejherowska, and
- construction of a roller skating rink at ul. Sukielnicka.

The total cost of investment amounted to nearly PLN 200 million, including PLN 25 million from the Ministry of Sports and Tourism and PLN 5 million from the Lower Silesian Voivodeship.

As part of the Games organisation, the following sports infrastructure investments were made in TWG2017 Partner Cities:

- a comprehensive renovation of the ice rink in Świdnica which was also partially financed from the Ministry of Sports and Tourism amounting to PLN 2 million, and
- construction of a swoop pond at the Szymanów Airfield.

Sport and educational programmes

WOC, together with its partner organisations, carried out a number of sport and educational programmes aimed at children and young people aged 4-19 as well as physical education teachers. As some of the projects were attractive to and had interest from third parties, they were expanded to other cities/towns of the Lower Silesian region or were carried out as nation-wide projects.

The main objectives of these projects included:

- promotion of physical activity,
- increasing the diversity of generally available forms of physical activity,
- making equipment for TWG 2017 sports available,
- increasing knowledge of TWG 2017 sport disciplines, and
- preventing social pathologies by offering alternative ways of spending leisure time.

The following projects, among others, were implemented in the years 2014-2017:

Programme	Description
Programme "Mali Wspaniali" ["Magnificent Minors"]	Overall physical conditioning activities with elements of martial arts for children aged 4-6. The project was carried out from November 2014 in kindergartens. It reached a total of 102 kindergartens and nearly 10,000 children.
Programme "Unihokej – uczy, bawi i wychowuje" ["Floorball teaches, entertains, educates"]	An educational programme comprising: <ul style="list-style-type: none"> • training for physical education teachers, • delivery of sport equipment to selected schools, • competitions for schools engaged in the project.
Programme "ORIENTUJ SIĘ!" ["GET ORIENTED!"]	A sports project to promote orienteering, carried out from Autumn 2014 in Lower Silesia, comprising: <ul style="list-style-type: none"> • training in schools, and • TWG2017 League of Schools providing the students an opportunity to take part in a competition each month. A total of 72 primary schools and 15,985 children took part in the project.
Programme "AgloCamp TWG"	Sports camp AGLOCAMP The World Games. Activities in a dozen or so disciplines of TWG2017 were organised during the camp. Attending the camp was an award for sport achievements. A total of 64 children aged 10-13 took part in the camp.
Programme "Football Flag"	A sport and educational programme promoting american football; it comprised training for teachers and classes in schools held once a week. The participant schools included 6 primary schools and 6 junior secondary schools.
Programme "Ferie TWG2017" ["Winter Holiday TWG2017"]	A sports project held during the winter holidays. Exercise sessions for children were held for seven days . They involved a location-based game with elements of TWG2017 sports. A total of 1,000 students from 10 Wrocław primary schools took part the game.
Programme "Przewodnik po dyscyplinach TWG2017" ["TWG2017 Disciplines Guide"]	This educational programme was a series of meetings for physical education teachers that took place in 2016 and 2017. The meetings gave information on the sports of TWG2017.
Programme "Godziny sportowe dla Wrocławian/Parki wypożyczalnia w Parku" ["Sports hours for Wrocław residents/ Parks and sports equipment rental in the Park"]	The promotion of an active sporting lifestyle carried our during the summer months in 11 of Wrocław's parks, involving: <ul style="list-style-type: none"> • free rental of the equipment for TWG2007 sports e.g. tug-of-war, american football, petanque, ultimate frisbee, and • free open training in TWG sports.
Programme "Korfball - drużyna przyjaciół" ["Korfball - a team of friends"]	A sport and educational programme to promote korfball, carried out in the academic year 2016/2017, comprising: <ul style="list-style-type: none"> • teacher training, • providing the participating schools with korfball equipment • classes in korfball, and • an inter-school tournament concluding the participation in the project. The programme was attended by physical education teachers, junior and senior secondary school students from six Wrocław schools.
Programme „Poznajemy dyscypliny The World Games 2017” ["We learn about sports of The World Games 2017"]	A sport and educational programme aimed at Wrocław kindergartens, carried out in 2017, comprising: <ul style="list-style-type: none"> • training for kindergarten teachers in basic principles of sports covered by TWG2017 programme, and • providing kindergartens with sets of equipment to be used during sport classes and games with children.
Programme "Akademia Małych Mistrzów" ["Little Champions Academy"]	A sport and educational project, where sports Academies were established in ten Polish cities, including in Wrocław. The key idea of the project was to provide physical activity opportunities to as many pre-school children as possible. Project aims: <ul style="list-style-type: none"> • handball training, • health-promoting education aimed at children and parents in the form of recurring meetings "Little Champions Academy – expert Panel", and • occasional visits to sporting events [active and passive participation]. A total of 752 people benefitted from this project.

The programmes mentioned above meant the main objective of Legacy TWG2017 was achieved. Owing to extensive educational activities, children, young people and adults could learn about sport disciplines which are less popular in Poland. Residents of Wrocław had an opportunity to get acquainted with TWG2017 sports and take part in sport workshops, e.g. as part of activities in Wrocław parks. All the social groups mentioned had the chance to experience sport as one of the more interesting ways of spending leisure time. Additionally, health-aware attitudes were promoted.

Promotion of Wrocław, the Lower Silesian Voivodeship and Poland as the Hosts of TWG2017

The main tool for the promotion of Poland, the Lower Silesian Voivodeship and the City of Wrocław as the Hosts of TWG2017, was attendance at sports and tourism promotion trade fair events. The aim and the key guideline was to enhance their image among people who would potentially visit Poland, increase the media interest in Poland and the largest sporting event of 2017 to be held in Wrocław, Poland.

From 2014–2017, WOC took part in international trade fairs held in Warsaw, Wrocław, Poznań, Katowice, Prague and Berlin. WOC also presented a broad offer in Brazil at the Summer Sport Exhibition JOGOS 2017 held in Rio de Janeiro and at the World Exhibition EXPO 2015 in Milan.

At these trade fairs, TWG2017 was promoted with workshops presenting selected TWG sport disciplines and information campaigns using TWG2017 publicity materials.

As part of the Games promotion and Legacy activities, Polish Mail designed a postage stamp and postcard inspired by TWG 2017. A total of 160,000 stamps and 1,500 souvenir sheets were produced.

Supporting the development of TWG2017 disciplines

For the four years before the Games, WOC and individual sports associations planned and carried out a series of testing and promotional events at the Polish Championship, European Championship and World Championship levels. This led to an increase in skills and knowledge in organising national and international events at the highest level.

As part of public procurement processes carried out by the Ministry of Sports and Tourism, the Office for Sport Tourism and Recreation of the Municipality of Wrocław and the Wrocław Organising Committee, the WOC partners purchased sport equipment intended for use during TWG2017 [such as martial arts mats, gymnastics equipment, balls, nets, goals, lines, platforms etc.]. Such a manner of providing the sports equipment in cooperation with sport clubs and associations resulted in that the equipment is held by institutions whose aim is to develop particular disciplines and that the equipment will be used for training and organisation of another competitions.

In 2015 the Ministry of Sports and Tourism launched a special programme to support the development of non-Olympic sports. Thanks to this programme, PLN 20 million was spent each year to support athletes in their training in sports covered by TWG2017 programme.

The Polish Olympic Committee, working with WOC and the Ministry of Sports and Tourism, undertook to coordinate the preparation and participation of the Polish national team in TWG2017. POC was responsible for: organising periodical meetings with representatives of Polish associations, providing national team apparel, organisation of the pledge to be said by the team and the mission for caring of athletes' affairs during the event. This was the first time in the history of Poland's competing in TWG that the cooperation was so broadly defined. It will continue in the future. The Ministry of Sports and Tourism financed the preparations of the Polish national team for taking part in TWG2017.

Summary

The holding of TWG2017 in Wrocław contributed to an increase in activities to promote an active lifestyle. Wrocław residents, by participating in sport and educational programmes and other promotional activities related to TWG2017, could learn about new methods to actively spend their leisure time, while less-active people could start their adventure with sport activities after getting acquainted with the disciplines of TWG.

The construction of new sports venues and revitalisation of existing ones is an opportunity for Wrocław residents to spend their leisure time actively and has allowed for a wider range of sport events to be held.

Training of teachers in TWG2017 sports, and the equipment given to schools under Games projects, will allow for sport disciplines other than those most often found in schools to continue

14. THE WORLD GAMES PLAZA

General information

According to the Agreement with IWGA, WOC was obliged to arrange a Fan Zone, named The World Games Plaza [TWG Plaza], included in TWG2017 programme.

Plac Wolności - a huge square in the city centre - was chosen to be TWG Plaza - a location proven successful in major artistic events such as concerts.

Having analysed the options, the owner of rights to TWG2017 decided to entrust the organisation of TWG Plaza to an institution who had experience in the production of outdoor cultural and artistic events - Biuro Festiwalowe Impart.

The comprehensive implementation of the Fan Zone involved a detailed plan of land development, contracting artists in line with the artistic concept and actual production of TWG Plaza.

The WOC team developed the key programme guidelines, namely it defined the target group, the customer profile, and the assumptions about the objectives of the artistic programme. Then, on this basis, a TWG Plaza daily programme was developed, which included a sports section and an artistic part.

Operation of TWG Plaza

The Fan Zone was in operation from 21 to 29 July 2017 from 3.00 p.m. to 11.00 p.m. each day.

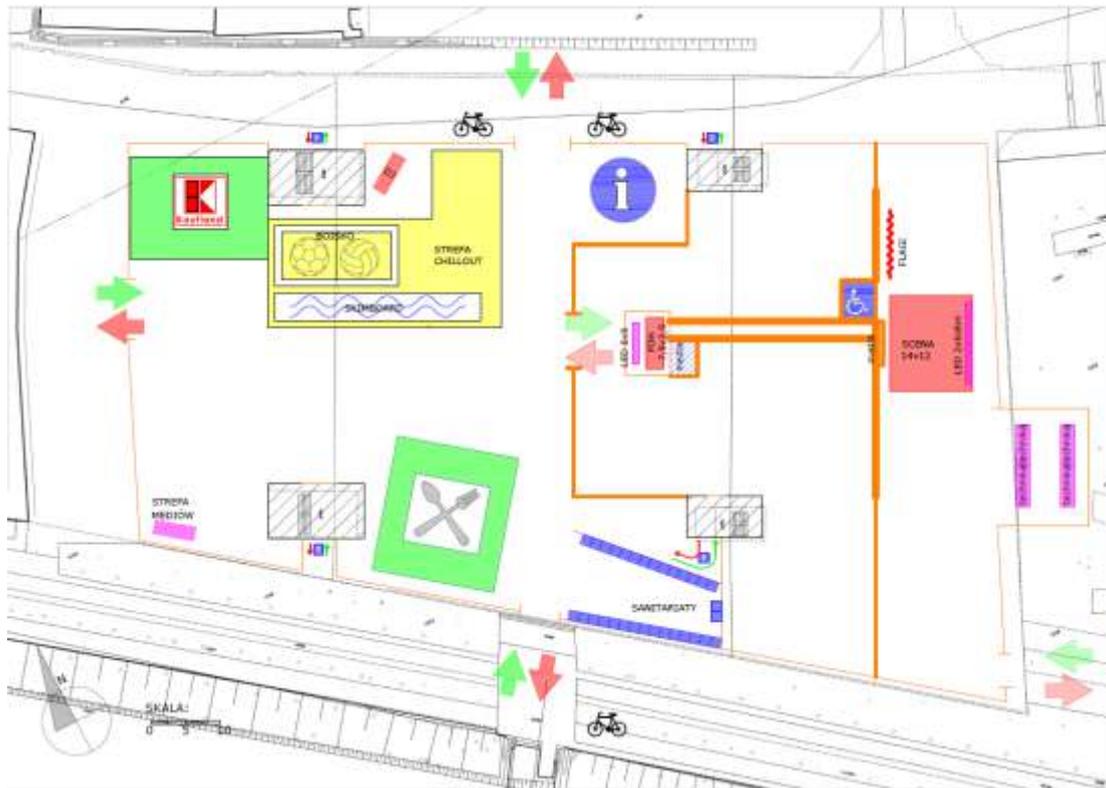

Apart from the sports and artistic programme, the Fan Zone comprised a catering area, a Kaufland store and a TWG-branded items shop.

Functionally, TWG Plaza was divided into two areas: a daily activity area with a small stage arranged on a container and a concert area with a large stage on the eastern side of the square.

From 3.00 p.m. to 7:45 p.m. sports programme activities and artistic events were held on the small stage, while from 7:45 p.m. the concert area was opened.

The TWG Plaza functional plan was as follows:

The sports programme consisted of the following items:

- live broadcasts from TWG programme competition events,
- creating a space for active leisure time; in this zone there was a beach handball and beach volleyball field and a skimboard track, and
- organising sport shows from the "Sports Garden" programme.

The World Games Plaza artistic programme aimed to present different genres of music in order to reach as many audiences as possible.

The detailed schedule is below:

21.07

- Stage on the container: DJ SET
- Main stage: CHAMBARA sport show, Wand ballet, support + KULT (band)

22.07

- Stage on the container: DJ SET
- Main stage: sport presentation wrestling, support + DAWID KWIATKOWSKI

23.07

- Stage on the container: DJ SET
- Main stage: sport presentation Koluchstyle, concert by PAULA I KAROL and GIRLS ON FIRE

24.07

- Stage on the container: DJ SET
- Main stage: HOO DOO BAND & Friends

25.07

- Stage on the container from 3.00 p.m. to 7.45 p.m.: Daniel Drumz (U Know Me Records) and DJ Hubson
- Main stage: Grubson

26.07 - KAUF LAND ATHLETES' PARTY

- Stage on the container from 3.00 p.m. to 7.45 p.m.: Last Robots and Miód
- Main stage: 8.00 p.m. – 9.00 p.m. Novika & Mr Lex and from 9.00 p.m. to 10.30 p.m. Chase & Status
- From 10.30 p.m. to 11.30 p.m. mapping and laser show on the façade of the National Music Forum [NFM]

27.07

- Stage on the container from 3.00 p.m. to 7.45 p.m.: Rap Szalet
- Main stage: Electro Acoustic Beat Sessions with their guests: Bitamina, Hades and Waldemar Kasta

28.07

- Stage on the container from 3.00 p.m. to 7.45 p.m.: Junior Stress, DjKrzaku,
- Main stage: Joint Venture Soundsystem, Vavamuffin

29.07

- Stage on the container from 3.00 p.m. to 7.45 p.m.: Miód
- Stage on the container from 8.00 p.m.: Rebeka

Athletes' Party

One of the evenings in the TWG Plaza programme was designed for the organisation of the so-called Athletes' Party – an event dedicated to all athletes taking part in the Games.

The event was organised under the sponsorship of the General Sponsor of the Games – Kaufland, who acquired the rights of titular sponsor of the event.

Due to the nature of the event [for athletes participating in the Games], the Kaufland Athlete's Party's main objective was to focus on international audiences with varied musical tastes. The concert was divided into two parts: the first one was played by Novika, and the second one was the international electronic music star Chase & Status. After the concert part of the event, a mapping and laser show was held on the façade of the National Music Forum [NFM].

Athlete of the Day

Each day, an Athlete of the Day award was granted. The selection of the athlete was made by IWGA and the award ceremonies were held on the large concert stage of TWG Plaza in the evening part of the artistic programme at 7.45 p.m., just before the main concerts.

List of awarded athletes:

Date	Athlete of the Day	Presenter
21.07	Róża Gumienna, Dmitrii Zhurman	Adam Roczek, Wojciech Adamski
22.07	Sara Moreno, Vincente Lli	Ron Froehlich
23.07	Reza Alipourshenazandifar, Otgon Munkhtstseg	Tom Dielen
24.07	Wojciech Bógdał, Clara Guerrero and Rocio Restrepo	Jose Perurena
25.07	Larisa Soloviova, Amedeo Tonelli	Chantal Boehi
26.07	Matthias Kyburz, Kiyou Shimizu	Co Koren
27.07	Slobodan Mijajlovic, Natalia Berdnikava	Max Bishop
28.07	Amal Amjahid, Muensang Suppachai	Fumio Morooka
29.07	Women's tug-of-war team from Taipei	Dj Mackovets
30.07	Anna Miadzielec and JackekTarczyło	Max Bishop, Wojciech Adamski

Summary

The total number of people who attended TWG Plaza events was 75,000.

The concerts performed by Dawid Kwiatkowski, Chase & Status and KULT were especially popular, and the beach and skimboard track were among the attractions.

As a result of unfavourable weather conditions [a storm] on July 23, the Zone's activity was limited to afternoon and evening activities on the main stage, such as the presentation of the sport discipline "Koluchstyle" and music performances by "Paula& Karol" and "Girls on Fire".

THE WORLD GAMES
WROCLAW 2017
